

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

Quarterly Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the Quarterly Period Ended March 31, 2023

Commission File Number 001-15877

German American Bancorp, Inc.
(Exact name of registrant as specified in its charter)

Indiana
(State or other jurisdiction of
incorporation or organization)

35-1547518
(I.R.S. Employer
Identification No.)

711 Main Street, Jasper, Indiana 47546
(Address of Principal Executive Offices and Zip Code)

Registrant's telephone number, including area code: (812) 482-1314

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company:

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act):

Yes ☐ No ☒

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, no par value	GABC	Nasdaq Global Select Market

As of May 2, 2023, the registrant had 29,573,242 outstanding shares of Common Stock, no par value.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS AND ASSOCIATED RISKS

Information included in or incorporated by reference in this Quarterly Report on Form 10-Q, our other filings with the Securities and Exchange Commission (the “SEC”) and our press releases or other public statements contains or may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Please refer to the discussions of our forward-looking statements and associated risks in our Annual Report on Form 10-K for the year ended December 31, 2022, in Item 1, “Business - Forward-Looking Statements and Associated Risks” and our discussion of risk factors in Item 1A, “Risk Factors” of that Annual Report on Form 10-K, as updated and supplemented from time to time by our subsequent SEC filings, including by the discussion under the heading “Forward-Looking Statements and Associated Risks” at the conclusion of Item 2 of Part I of this Report (“Management’s Discussion and Analysis of Financial Condition and Results of Operations”), and by the additional risk factors set forth in Part II, Item 1A, “Risk Factors” of this Report.

GERMAN AMERICAN BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2023
(unaudited, dollars in thousands except share and per share data)

NOTE 1 – Basis of Presentation and Market Conditions

German American Bancorp, Inc. operates primarily in the banking industry. The accounting and reporting policies of German American Bancorp, Inc. and its subsidiaries (hereinafter collectively referred to as the "Company") conform to U.S. generally accepted accounting principles. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. All adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the periods reported have been included in the accompanying unaudited consolidated financial statements, and all such adjustments are of a normal recurring nature. It is suggested that these consolidated financial statements and notes be read in conjunction with the financial statements and notes thereto in the Company's Annual Report on Form 10-K for the year ended December 31, 2022. Certain items included in the prior period financial statements were reclassified to conform to the current presentation. There was no effect on net income or total shareholders' equity based on these reclassifications.

NOTE 2 - Recent Accounting Pronouncements

Recently Adopted Accounting Guidance

In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2020-04, "Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting". These amendments provide temporary optional guidance to ease the potential burden in accounting for reference rate reform. The ASU provides optional expedients and exceptions for applying generally accepted accounting principles to contract modifications and hedging relationships, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued. It is intended to help stakeholders during the global market-wide reference rate transition period. In January 2021, the FASB issued ASU 2021-01 which clarifies that certain optional expedients and exceptions in Topic 848 for contract modifications and hedge accounting apply to derivatives that are affected by the discounting transition. The guidance is effective for all entities as of March 12, 2020 through December 31, 2024. The Company has discontinued originating LIBOR based loans and has a plan in place to transition LIBOR indexed loans primarily to term SOFR or other indices.

On March 31, 2022, the FASB issued ASU 2022-02, "Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures" which eliminates the troubled debt restructuring recognition and measurement guidance and instead requires an entity to evaluate whether the modification represents a new loan or a continuation of an existing loan. The amendments also enhance existing disclosures and include new disclosure requirements related to certain modifications of receivables made to borrowers experiencing financial difficulty. To improve consistency for vintage disclosures, the ASU requires that public business entities disclose current-period gross write-offs by year of origination for financing receivables and net investments in leases within the scope of Subtopic 326-20. For entities that have adopted ASU 2016-13, the amendments are effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. For entities that have not adopted ASU 2016-13, the effective dates for the amendments are the same as the effective dates in ASU 2016-13. Early adoption is permitted if ASU 2016-13 has been adopted, including adoption in an interim period. If an entity elects to adopt the amendments in an interim period, the guidance should be applied as of the beginning of the fiscal year that includes the interim period. The Company adopted the new guidance prospectively with no material impact to the consolidated financial statements.

The SEC released Staff Accounting Bulletin No. 121 ("SAB 121") on March 31, 2022,, which provides interpretive guidance regarding the accounting for obligations to safeguard crypto-assets an entity holds for its customers, either directly through an agent or another third party acting on its behalf. SAB 121 requires an entity to recognize a liability on its balance sheet to reflect the obligation to safeguard the crypto-assets of others, along with a corresponding safeguarding asset, both of which are measured at fair value. The Company has completed an evaluation and concluded that it does not have a safeguarding obligation under SAB 121 and therefore the disclosures do not apply.

GERMAN AMERICAN BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2023
(unaudited, dollars in thousands except share and per share data)

NOTE 3 – Per Share Data

The computation of Basic Earnings per Share and Diluted Earnings per Share are as follows:

	Three Months Ended March 31,	
	2023	2022
Basic Earnings per Share:		
Net Income	\$ 20,807	\$ 9,067
Weighted Average Shares Outstanding	29,507,446	29,403,052
Basic Earnings per Share	<u>\$ 0.71</u>	<u>\$ 0.31</u>
Diluted Earnings per Share:		
Net Income	\$ 20,807	\$ 9,067
Weighted Average Shares Outstanding	29,507,446	29,403,052
Potentially Dilutive Shares, Net	—	—
Diluted Weighted Average Shares Outstanding	29,507,446	29,403,052
Diluted Earnings per Share	<u>\$ 0.71</u>	<u>\$ 0.31</u>

For the three months ended March 31, 2023 and 2022, there were no anti-dilutive shares.

NOTE 4 – Securities

The amortized cost, unrealized gross gains and losses recognized in accumulated other comprehensive income (loss), and fair value of Securities Available-for-Sale were as follows:

Securities Available-for-Sale:	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Allowance for Credit Losses	Fair Value
March 31, 2023					
U.S. Treasury	\$ 1,984	\$ 1	\$ —	\$ —	\$ 1,985
Obligations of State and Political Subdivisions	917,686	1,201	(138,247)	—	780,640
MBS/CMO	811,898	—	(119,542)	—	692,356
US Gov't Sponsored Entities & Agencies	230,099	—	(34,824)	—	195,275
Total	<u>\$ 1,961,667</u>	<u>\$ 1,202</u>	<u>\$ (292,613)</u>	<u>\$ —</u>	<u>\$ 1,670,256</u>
December 31, 2022					
U.S. Treasury	\$ 64,097	\$ 22	\$ —	\$ —	\$ 64,119
Obligations of State and Political Subdivisions	939,193	673	(162,014)	—	777,852
MBS/CMO	846,519	—	(131,838)	—	714,681
US Gov't Sponsored Entities & Agencies	245,017	—	(40,000)	—	205,017
Total	<u>\$ 2,094,826</u>	<u>\$ 695</u>	<u>\$ (333,852)</u>	<u>\$ —</u>	<u>\$ 1,761,669</u>

All mortgage-backed securities in the above table (identified above and throughout this Note 4 as "MBS/CMO") are residential and multi-family mortgage-backed securities and guaranteed by government sponsored entities. The US Gov't Sponsored Entities & Agencies in the above table include securities that have underlying collateral of equipment, machinery and commercial real estate.

GERMAN AMERICAN BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2023
(unaudited, dollars in thousands except share and per share data)

NOTE 4 - Securities (continued)

The amortized cost and fair value of Securities at March 31, 2023 by contractual maturity are shown below. Expected maturities may differ from contractual maturities because some issuers have the right to call or prepay certain obligations with or without call or prepayment penalties. Mortgage-backed Securities are not due at a single maturity date and are shown separately.

Securities Available-for-Sale:	Amortized Cost	Fair Value
Due in one year or less	\$ 4,154	\$ 4,156
Due after one year through five years	14,968	15,055
Due after five years through ten years	56,769	55,364
Due after ten years	843,779	708,050
MBS/CMO	811,898	692,356
US Gov't Sponsored Entities & Agencies	230,099	195,275
Total	<u>\$ 1,961,667</u>	<u>\$ 1,670,256</u>

Proceeds from the Sales of Securities are summarized below:

	Three Months Ended March 31, 2023	Three Months Ended March 31, 2022
Proceeds from Sales	\$ 93,752	\$ 91,946
Gross Gains on Sales	2	372
Income Taxes on Gross Gains	—	78

The carrying value of securities pledged to secure repurchase agreements, public and trust deposits, and for other purposes as required by law was \$352,712 and \$354,123 as of March 31, 2023 and December 31, 2022, respectively.

Below is a summary of securities with unrealized losses as of March 31, 2023 and December 31, 2022, presented by length of time the securities have been in a continuous unrealized loss position:

	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
March 31, 2023

Available-for-sale debt securities in unrealized loss positions are evaluated for impairment related to credit losses at least quarterly. For available-for-sale debt securities in an unrealized loss position, the Company assesses whether we intend to sell,

GERMAN AMERICAN BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2023
(unaudited, dollars in thousands except share and per share data)

NOTE 4 - Securities (continued)

or it is more likely than not that we will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is reduced to fair value through income. For available-for-sale debt securities that do not meet the criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security and the issuer, among other factors. If this assessment indicates that a credit loss exists, we compare the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis for the security, a credit loss exists and an allowance for credit losses is recorded, limited to the amount that the fair value of the security is less than its amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income, net of applicable taxes. The decrease in unrealized losses from December 31, 2022 to March 31, 2023 was primarily the result of fair value adjustments caused by the change in market interest rates. There was no allowance for credit losses for available-for-sale debt securities at March 31, 2023 or December 31, 2022.

Although management has the ability to sell these securities if the need arises, their designation as available-for-sale should not necessarily be interpreted as an indication that management anticipates such sales.

Accrued interest receivable on available-for-sale debt securities totaled \$9,710 at March 31, 2023 and \$10,637 at December 31, 2022. Accrued interest receivable is excluded from the estimate of credit losses.

The Company's equity securities are listed as Other Investments on the Consolidated Balance Sheets and consist of one non-controlling investment in a single banking organization at March 31, 2023 and December 31, 2022. The original investment totaled \$1,350 and other-than-temporary impairment was previously recorded totaling \$997. The Company's equity securities are considered not to have readily determinable fair value and are carried at cost and evaluated for impairment. At March 31, 2023, there was no additional impairment recognized through earnings.

NOTE 5 – Derivatives

The Company executes interest rate swaps with commercial banking customers to facilitate their respective risk management strategies. The notional amounts of these interest rate swaps and the offsetting counterparty derivative instruments were \$133,458 at March 31, 2023 and \$134,684 at December 31, 2022. These interest rate swaps are simultaneously hedged by offsetting interest rate swaps that the Company executes with a third party, such that the Company minimizes its net risk exposure resulting from such transactions with approved, reputable, independent counterparties with substantially matching terms. The agreements are considered stand-alone derivatives and changes in the fair value of derivatives are reported in earnings as non-interest income. While the derivatives represent economic hedges, they do not qualify as hedges for accounting purposes.

Credit risk arises from the possible inability of counterparties to meet the terms of their contracts. The Company's exposure is limited to the replacement value of the contracts rather than the notional, principal or contract amounts. There are provisions in the agreements with the counterparties that allow for certain unsecured credit exposure up to an agreed threshold. Exposures in excess of the agreed thresholds are collateralized. In addition, the Company minimizes credit risk through credit approvals, limits, and monitoring procedures.

The following table reflects the fair value of derivative instruments included in the Consolidated Balance Sheets as of:

	March 31, 2023		December 31, 2022	
	Notional Amount	Fair Value	Notional Amount	Fair Value
Included in Other Assets:

The Company utilizes the Static Pool methodology in determining expected future credit losses. Static pool analysis means segmenting and tracking loans over a period of time based on similar risk characteristics such as loan structure, collateral type, industry of borrower and concentrations, contractual terms and credit risk indicators. Static pool calculates a loss rate on a closed pool of loans that existed on a specified start date based upon the remaining life of each segment.

The Company's expected loss estimate is anchored in historical credit loss experience, with an emphasis on all available portfolio data. The Company's historical look-back period includes January 2014 through the current period, on a monthly basis.

Qualitative reserves reflect management's overall estimate of the extent to which current expected credit losses on collectively evaluated loans will differ from historical loss experience. The analysis takes into consideration industry and collateral concentrations, acquired loan portfolio characteristics and other credit-related analytics as deemed appropriate. Management attempts to quantify qualitative reserves whenever possible.

The Company estimates the allowance balance using relevant available information, from internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts. Historical loss experience provides the basis for the estimation of expected credit losses. Adjustments to historical loss information are made for changes in underwriting standards, portfolio mix, delinquency level, changes in environmental conditions, unemployment rates, risk classifications and collateral values. The allowance for credit losses is measured on a collective (pooled) basis when similar risk characteristics exist. Based on the potential increased losses related to the advancing stress on the economy as a result of inflationary pressures, rising interest rates and financial market volatility, the Company has considered this loss experience may align with loss experience from the recessionary period from 2008-2011 and qualitative adjustments have been made accordingly.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2023
(unaudited, dollars in thousands except share and per share data)

NOTE 6 - Loans (continued)

Loans that do not share risk characteristics are evaluated on an individual basis. Loans evaluated individually are not included in the collective evaluation. When the borrower is experiencing financial difficulty at the reporting date and repayment is expected to be provided substantially through the operation or sale of the collateral, expected credit losses are based on the fair value of the collateral at the reporting date adjusted for selling costs.

For the three months ended March 31, 2023, the allowance for credit losses remained constant. Key indicators utilized in forecasting for the allowance calculations include unemployment rates and gross domestic product. There has been some improvement in these factors over previous periods; however, rising interest rates and the expanded inflationary impact on consumer discretionary spending were considered in the qualitative factors to determine the allowance for credit losses.

All classes of loans, including loans acquired with deteriorated credit quality, are generally placed on non-accrual status when scheduled principal or interest payments are past due for 90 days or more or when the borrower's ability to repay becomes doubtful. For purchased loans, the determination is made at the time of acquisition as well as over the life of the loan. Uncollected accrued interest for each class of loans is reversed against income at the time a loan is placed on non-accrual. Interest received on such loans is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual. All classes of loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured. Loans are typically charged-off at 180 days past due, or earlier if deemed uncollectible. Exceptions to the non-accrual and charge-off policies are made when the loan is well secured and in the process of collection.

The following tables present the amortized cost in non-accrual loans and loans past due over 89 days still accruing by class of loans as of March 31, 2023 and December 31, 2022:

March 31, 2023	Non-Accrual With No Allowance for Credit Loss	Total Non-Accrual	Loans Past Due Over 89 Days Still Accruing
Commercial and Industrial Loans	\$ 1,384	\$ 8,583	\$ —

Loan Modifications Made to Borrowers Experiencing Financial Difficulty

Effective January 1, 2023, the Company prospectively adopted ASU 2022-02, which eliminated the accounting for troubled debt restructurings while establishing a new standard for the treatment of modifications made to borrowers experiencing financial difficulties. As such, effective with the adoption of the new standard, the Company will not include, prospectively, financial difficulty modifications in its presentation of nonperforming loans, nonperforming assets or classified assets. Prior period data, which included troubled debt restructurings, has not been adjusted.

The Company's loan modifications for borrowers experiencing financial difficulties will typically include one or a combination of the following: a reduction of the stated interest rate of the loan; an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk; or a permanent reduction of the recorded investment in the loan. No modification in 2023 resulted in the permanent reduction of the recorded investment in the loan.

During the three months ended March 31, 2023, the Company had no modified loans made to borrowers experiencing financial difficulty. There were no modified loans that had a payment default during the three months ended March 31, 2023 and were modified in the twelve months prior to that default to borrowers experiencing financial difficulty. The Company considers a loan to be in payment default once it is 30 days contractually past due under the modified terms.

Troubled Debt Restructurings Disclosures Prior to Adoption of ASU 2022-02

In certain instances, the Company may choose to restructure the contractual terms of loans. A troubled debt restructuring occurs when the Bank grants a concession to the borrower that it would not otherwise consider due to a borrower's financial difficulty. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without modification. This evaluation is performed under the Company's internal underwriting policy. The Company uses the same methodology for loans acquired with deteriorated credit quality as for all other loans when determining whether the loan is a troubled debt restructuring.

As of December 31, 2022, the Company had no troubled debt restructurings. The Company had no specific allocation of allowance for these loans at December 31, 2022.

The Company had not committed to lending any additional amounts as of December 31, 2022 to customers with outstanding loans that are classified as troubled debt restructurings.

For the year ended December 31, 2022, the Company had no loans modified as troubled debt restructurings. Additionally, there were no loans modified as troubled debt restructurings for which there was a payment default within twelve months following the modification during the year ended December 31, 2022.

A loan is considered to be in payment default once it is 30 days contractually past due under the modified terms.

(unaudited, dollars in thousands except share and per share data)

NOTE 6 - Loans (continued)

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company classifies loans as to credit risk by individually analyzing loans. This analysis includes commercial and industrial loans, commercial real estate loans, and agricultural loans with an outstanding balance greater than \$250. This analysis is typically performed on at least an annual basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans.

NOTE 6 - Loans (continued)

The Company considers the performance of the loan portfolio and its impact on the allowance for credit losses. For residential and consumer loan classes, the Company also evaluates credit quality based on the aging status of the loan, which was previously presented, and by payment activity. The following tables present the amortized cost in residential, home equity and consumer loans based on payment activity.

	Term Loans Amortized Cost Basis by Origination Year							Revolving Loans Amortized Cost Basis	Total

(unaudited, dollars in thousands except share and per share data)

NOTE 7 – Repurchase Agreements Accounted for as Secured Borrowings

Repurchase agreements are short-term borrowings included in FHLB Advances and Other Borrowings and mature overnight and continuously. Repurchase agreements, which were secured by mortgage-backed securities, totaled \$58,323 and \$64,961 as of March 31, 2023 and December 31, 2022, respectively. Risk could arise when the collateral pledged to a repurchase agreement declines in fair value. The Company minimizes risk by consistently monitoring the value of the collateral pledged. At the point in time where the collateral has declined in fair value, the Company is required to provide additional collateral based on the value of the underlying securities.

NOTE 8 – Segment Information

The Company's operations include three primary segments: core banking, wealth management services, and insurance operations. The core banking segment involves attracting deposits from the general public and using such funds to originate consumer, commercial and agricultural, commercial and agricultural real estate, and residential mortgage loans, primarily in the Company's local markets. The core banking segment also involves the sale of residential mortgage loans in the secondary market. The wealth management segment involves providing trust, investment advisory, brokerage and retirement planning services to customers. The insurance segment offers a full range of personal and corporate property and casualty insurance products, primarily in the Company's banking subsidiary's local markets.

The core banking segment is comprised by the Company's banking subsidiary, German American Bank, which operated through 77 banking offices at March 31, 2023. Net interest income from loans and investments funded by deposits and borrowings is the primary revenue for the core-banking segment. The wealth management segment's revenues are comprised primarily of fees generated by the trust operations of the Company's banking subsidiary and by German American Investment Services, Inc. These fees are derived by providing trust, investment advisory, brokerage and retirement planning services to its customers. The insurance segment primarily consists of German American Insurance, Inc., which provides a full line of personal and corporate insurance products. Commissions derived from the sale of insurance products are the primary source of revenue for the insurance segment.

The following segment financial information has been derived from the internal financial statements of the Company which are used by management to monitor and manage financial performance. The accounting policies of the three segments are the same as those of the Company. The evaluation process for segments does not include holding company income and expense. Holding company amounts are the primary differences between segment amounts and consolidated totals, and are reflected in the column labeled "Other" below, along with amounts to eliminate transactions between segments.

NOTE 9 – Stock Repurchase Plan

On January 31, 2022, the Company's Board of Directors approved a plan to repurchase up to 1,000,000 shares of the Company's outstanding common stock. On a share basis, the amount of common stock subject to the repurchase plan represented approximately 3% of the Company's outstanding shares at the time it was approved. The Company is not obligated to purchase shares under the plan, and the plan may be discontinued at any time. The actual timing, number and share price of shares purchased under the repurchase plan will be determined by the Company at its discretion and will depend upon such factors as the market price of the stock, general market and economic conditions and applicable legal requirements. At the time it approved the new plan, the Board also terminated a similar plan that had been adopted in January 2021. At the time of its termination, the Company had been authorized to purchase up to 1,000,000 shares of common stock under the 2021 repurchase plan. The Company did not repurchase any shares of common stock under the 2021 repurchase plan and has not repurchased any shares under the 2022 repurchase plan.

In August 2022, the Inflation Reduction Act of 2022 (the "IRA") was enacted. Among other things, the IRA imposes a new 1% excise tax on the fair market value of stock repurchased after December 31, 2022 by publicly traded U.S. corporations, like the Company. With certain exceptions, the value of stock repurchased is determined net of stock issued in the year, including shares issued pursuant to compensatory arrangements.

NOTE 10 – Equity Plans and Equity Based Compensation

During the periods presented, the Company maintained two equity incentive plans under which stock options, restricted stock, and other equity incentive awards could be granted. Those plans include (i) the Company's 2009 Long-Term Equity Incentive Plan, under which no new grants may be made, and (ii) the Company's 2019 Long-Term Equity Incentive Plan (the "2019 LTI Plan"). The 2019 LTI Plan, which authorizes a maximum aggregate issuance of 1,000,000 shares of common stock (subject to certain permitted adjustments), became effective on May 16, 2019, following approval of the Company's shareholders. It will remain in effect until May 16, 2029, or until all shares of common stock subject to the 2019 LTI Plan are distributed, all awards have expired or terminated, or the plan is terminated pursuant to its terms, whichever occurs first.

For the three months ended March 31, 2023 and 2022, the Company granted no options. The Company recorded no stock compensation expense applicable to options during the three months ended March 31, 2023 and 2022. In addition, there was no unrecognized option expense.

GERMAN AMERICAN BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2023
(unaudited, dollars in thousands except share and per share data)

NOTE 10 - Equity Plans and Equity Based Compensation (continued)

During the periods presented, awards of long-term incentives were granted in the form of restricted stock. In 2019 and prior, awards that were granted to management and selected other employees under the Company's management incentive plan were granted in tandem with cash credit entitlements in the form of 60% restricted stock grants and 40% cash credit entitlements. In 2020, awards granted under the management incentive plan were granted in tandem with cash credit entitlements in the form of 66.67% restricted stock grants and 33.33% cash credit entitlements. In 2019 and prior, the restricted stock grants and tandem cash credit entitlements, generally, vested in three annual installments of 33.33% each. In 2020, 100% of the cash portion of an award vested towards the end of the year in which the grant was made, followed by the restricted stock grants vesting 50% in each of the 2nd and 3rd years. Beginning in 2021, for named executive officers, awards are granted in the form of 100% restricted stock grants which vest in one-third installments on the first, second and third anniversaries of the award date. Awards that are granted to directors as additional retainers for their services do not include any cash credit entitlement. These director restricted stock grants are subject to forfeiture in the event that the recipient of the grant does not continue in service as a director of the Company through December 31 of the year after grant or does not satisfy certain meeting attendance requirements, at which time they generally vest 100%. For measuring compensation costs, restricted stock awards are valued based upon the market value of the common shares on the date of grant. During the three months ended March 31, 2023, the Company granted 80,390 awards of restricted stock. During the three months ended March 31, 2022, the Company granted 63,258 awards of restricted stock. Total unvested restricted stock awards at March 31, 2023 and December 31, 2022 were 145,212 and 74,873, respectively.

The following table presents expense recorded for restricted stock and cash entitlements as well as the related tax information for the periods presented:

	Three Months Ended March 31,	
	2023	2022
Restricted Stock Expense	\$ 539	\$ 424
Cash Entitlement Expense	182	165
Tax Effect	(187)	(153)
Net of Tax	<u>\$ 534</u>	<u>\$ 436</u>

Unrecognized expense associated with the restricted stock grants and cash entitlements totaled \$5,516 and \$5,005 as of March 31, 2023 and 2022, respectively.

The Company's shareholders approved the Company's 2019 Employee Stock Purchase Plan on May 16, 2019, as well as an Amended and Restated 2019 Employee Stock Purchase Plan on May 21, 2020, which was amended and restated to reflect certain clarifying changes (the "2019 ESPP"). The 2019 ESPP replaced the Company's 2009 Employee Stock Purchase Plan, which expired by its own terms on August 16, 2019. The 2019 ESPP provides for a series of 3-month offering periods, commencing on the first day and ending on the last trading day of each calendar quarter, for the purchase of the Company's common stock by participating employees. The purchase price of the shares has been set at 95% of the fair value of the Company's common stock on the last trading day of the offering period. A total of 750,000 common shares has been reserved for issuance under the 2019 ESPP. The 2019 ESPP will continue until September 30, 2029, or, if earlier, until all of the shares of common stock allocated to the 2019 ESPP have been purchased. Funding for the purchase of common stock is from employee and Company contributions.

For the three months ended March 31, 2023, the Company recorded \$12 of expense related to the employee stock purchase plan resulting in \$9 net of tax. For the three months ended March 31, 2022, the Company recorded \$14 of expense related to the employee stock purchase plan resulting in \$11 net of tax. There was no unrecognized compensation expense as of March 31, 2023 and 2022 for the employee stock purchase plan. No stock options were outstanding as of March 31, 2023 and December 31, 2022.

NOTE 11 – Fair Value

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

GERMAN AMERICAN BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2023
(unaudited, dollars in thousands except share and per share data)

NOTE 11 - Fair Value (continued)

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Investment Securities: The fair values for investment securities are determined by quoted market prices, if available (Level 1). For investment securities where quoted prices are not available, fair values are calculated based on market prices of similar investment securities (Level 2). For investment securities where quoted prices or market prices of similar investment securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3). Level 3 pricing is obtained from a third-party based upon similar trades that are not traded frequently without adjustment by the Company. At March 31, 2023, the Company held \$83 in Level 3 securities which consist of non-rated Obligations of State and Political Subdivisions and \$917 in Level 3 securities which consist of non-rated MBS/CMO. Absent the credit rating, significant assumptions must be made such that the credit risk input becomes an unobservable input and thus these investment securities are reported by the Company in a Level 3 classification.

Derivatives: The fair values of derivatives are based on valuation models using observable market data as of the measurement date (Level 2).

Individually Analyzed Loans: Fair values for collateral dependent loans are generally based on appraisals obtained from licensed real estate appraisers and in certain circumstances includes consideration of offers obtained to purchase properties prior to foreclosure. Appraisals for commercial real estate generally use three methods to derive value: cost, sales or market comparison and income approach. The cost method bases value in the cost to replace the current property. Value of market comparison approach evaluates the sales price of similar properties in the same market area. The income approach considers net operating income generated by the property and an investor's required return. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Comparable sales adjustments are based on known sales prices of similar type and similar use properties and duration of time that the property has been on the market to sell. Such adjustments made in the appraisal process are typically significant and result in a Level 3 classification of the inputs for determining fair value.

Appraisals for both collateral-dependent loans and other real estate owned are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Company. Once received, a member of the Company's Risk Management Area reviews the assumptions and approaches utilized in the appraisal. In determining the value of collateral dependent loans and other real estate owned, significant unobservable inputs may be used which include: physical condition of comparable properties sold, net operating income generated by the property and investor rates of return.

Other Real Estate: Nonrecurring adjustments to certain commercial and residential real estate properties classified as other real estate are measured at the lower of carrying amount or fair value, less costs to sell. Fair values are generally based on third party appraisals of the property utilizing similar techniques as discussed above for Individually Analyzed Loans, resulting in a Level 3 classification. In cases where the carrying amount exceeds the fair value, less costs to sell, impairment loss is recognized.

Loans Held-for-Sale: The fair values of loans held for sale are determined by using quoted prices for similar assets, adjusted for specific attributes of that loan resulting in a Level 2 classification.

NOTE 11 - Fair Value (continued)

The carrying amounts and estimated fair values of the Company's financial instruments not previously presented are provided in the tables below for the periods ending March 31, 2023 and December 31, 2022. Not all of the Company's assets and liabilities are considered financial instruments, and therefore are not included in the tables. Because no active market exists for a significant portion of the Company's financial instruments, fair value estimates were based on subjective judgments, and therefore cannot be determined with precision.

Total Reclassifications for the Three Months Ended March 31, 2022	<u>\$ 294</u>	

NOTE 13 - Revenue Recognition

The following table presents non-interest income, segregated by revenue streams in-scope and out-of-scope of FASB ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), for the three months ended March 31, 2023 and 2022. Wealth management fees are included in the wealth management services segment while insurance revenues are included in the insurance segment. All other revenue streams are primarily included in the banking segment.

	Three Months Ended March 31,	
	2023	2022
Non-interest Income		
In-Scope of Topic 606:		
Wealth Management Fees	\$ 2,644	\$ 2,638
Service Charges on Deposit Accounts	2,788	2,683
Insurance Revenues	3,135	3,721
Interchange Fee Income	4,199	3,627
Other Operating Income	<u>753</u>	<u>758</u>
Non-interest Income (in-scope of Topic 606)	13,519	13,427
Non-interest Income (out-of-scope of Topic 606)	<u>1,448</u>	<u>2,761</u>
Total Non-interest Income	<u>\$ 14,967</u>	<u>\$ 16,188</u>

A description of the Company's revenue streams accounted for under Topic 606 follows:

Service Charges on Deposit Accounts: The Company earns fees from its deposit customers for transaction-based, account maintenance, and overdraft services. Transaction-based fees, which include services such as stop payment charges and statement rendering, are recognized at the time the transaction is executed (the point in time the Company fills the customer's request). Account maintenance fees, which relate primarily to monthly maintenance, are earned over the course of a month, representing the period over which the Company satisfies the performance obligation. Overdraft fees are recognized at the point in time that the overdraft occurs.

Interchange Fee Income: The Company earns interchange fees from debit/credit cardholder transactions conducted through various payment networks. Interchange fees from cardholder transactions represent a percentage of the underlying transaction value and are recognized daily, concurrently with the transaction processing services provided to the cardholder.

Wealth Management Fees: The Company earns wealth management fees from its contracts with trust and brokerage customers to manage assets for investment and/or to transact their accounts. These fees are primarily earned over time as the Company provides the contracted monthly or quarterly services and are generally assessed based on the market value of assets under management at month-end. Fees that are transaction based, including trade execution services, are recognized at the point in time that the transaction is executed (trade date).

GERMAN AMERICAN BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2023
(unaudited, dollars in thousands except share and per share data)

NOTE 13 - Revenue Recognition (continued)

Insurance Revenues: The Company earns insurance revenue from commissions derived from the sale of personal and corporate property and casualty insurance products. These commissions are primarily earned over time as the Company provides the contracted insurance product to customers.

NOTE 14 – Leases

At the inception of a contract, an entity should determine whether the contract contains a lease. Topic 842 defines a lease as a contract, or part of a contract, that conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration. Control over the use of an identified asset means that the customer has both (1) the right to obtain substantially all of the economic benefits from the use of the asset and (2) the right to direct the use of the asset.

German American has finance leases for branch offices as well as operating leases for branch offices, ATM locations and certain office equipment. The right-of-use asset is included in the 'Premises, Furniture and Equipment, Net' line of the Consolidated Balance Sheet. The lease liability is included in the 'Accrued Interest Payable and Other Liabilities' line of the Consolidated Balance Sheet.

The Company used the implicit lease rate when determining the present value of lease payments for finance leases. The present value of lease payments for operating leases was determined using the incremental borrowing rate as of the date the Company adopted this standard.

The components of lease expense were as follows:

	Three Months Ended March 31, 2023	Three Months Ended March 31, 2022
Finance Lease Cost:		
Amortization of Right-of -Use Assets	\$ 52	\$ 52
Interest on Lease Liabilities	78	83
Operating Lease Cost	373	369
Short-term Lease Cost	—	24
Total Lease Cost	<u>\$ 503</u>	<u>\$ 528</u>

The weighted average lease term and discount rates were as follows:

	March 31, 2023	March 31, 2022
Weighted Average Remaining Lease Term:		
Finance Leases	4 years	10 years
Operating Leases	7 years	8 years
Weighted Average Discount Rate:		
Finance Leases	7.58 %	11.44 %
Operating Leases	2.82 %	2.90 %

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

GERMAN AMERICAN BANCORP, INC. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

German American Bancorp, Inc. is a Nasdaq-traded (symbol: GABC) financial holding company based in Jasper, Indiana. German American, through its banking subsidiary German American Bank, operates 78 banking offices in 20 contiguous southern Indiana counties and 14 Kentucky counties. The Company also owns an investment brokerage subsidiary (German American Investment Services, Inc.) and a full line property and casualty insurance agency (German American Insurance, Inc.).

Throughout this Management's Discussion and Analysis, as elsewhere in this Report, when we use the term "Company," we will usually be referring to the business and affairs (financial and otherwise) of German American Bancorp, Inc. and its subsidiaries and affiliates as a whole. Occasionally, we will refer to the term "parent company" or "holding company" when we mean to refer to only German American Bancorp, Inc.

This section presents an analysis of the consolidated financial condition of the Company as of March 31, 2023 and December 31, 2022 and the consolidated results of operations for the three months ended March 31, 2023 and 2022. This discussion should be read in conjunction with the consolidated financial statements and other financial data presented elsewhere herein and with the financial statements and other financial data, as well as the Management's Discussion and Analysis of Financial Condition and Results of Operations, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2022.

MANAGEMENT OVERVIEW

This updated discussion should be read in conjunction with the Management Overview that was included in our Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2022.

The failures of Silicon Valley Bank and Signature Bank in March 2023, followed by the failure of First Republic Bank in May 2023, have caused concerns about the adequacy of liquidity in the banking sector as a whole. Despite uncertainties in the banking industry, the Company has not been negatively impacted by the recent bank failures. With its diverse core deposit base and access to other reliable funding sources, the Company has remained well-capitalized. The Company will continue to monitor the developments surrounding the recent bank failures, with a specific focus on managing its liquidity position in a way that balances the needs of the Company's daily operations with its longer-term strategic objectives.

Net income for the quarter ended March 31, 2023 totaled \$20,807,000, or \$0.71 per share, an increase of 129% on a per share basis compared with the first quarter 2022 net income of \$9,067,000, or \$0.31 per share. The first quarter of 2022 was significantly impacted by costs associated with the acquisition of Citizens Union Bancorp of Shelbyville, Inc. ("CUB") which closed effective January 1, 2022.

On January 1, 2022, the Company completed the acquisition of CUB through the merger of CUB with and into the Company. Immediately following completion of the CUB holding company merger, CUB's subsidiary bank, Citizen Union Bank of Shelbyville, Inc., was merged with and into the Company's subsidiary bank, German American Bank. CUB, headquartered in Shelbyville, Kentucky operated 15 retail banking offices located in Shelby, Jefferson, Spencer, Bullitt, Oldham, Owen, Gallatin and Hardin counties in Kentucky through Citizens Union Bank of Shelbyville, Inc. As of the closing of the transaction, CUB had total assets of approximately \$1.109 billion, total loans of approximately \$683.8 million, and total deposits of approximately \$930.5 million. The Company issued approximately 2.9 million shares of its common stock, and paid approximately \$50.8 million in cash, in exchange for all of the issued and outstanding shares of common stock of CUB.

For further information regarding this merger and acquisition transaction, see Note 18 (Business Combinations, Goodwill and Intangible Assets) in the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The financial condition and results of operations for the Company presented in the Consolidated Financial Statements, accompanying Notes to the Consolidated Financial Statements, and selected financial data appearing elsewhere within this Report, are, to a large degree, dependent upon the Company's accounting policies. The selection of and application of these

policies involve estimates, judgments, and uncertainties that are subject to change. The critical accounting policies and estimates that the Company has determined to be the most susceptible to change in the near term relate to the determination of the allowance for credit losses, the valuation of securities available for sale, income tax expense, and the valuation of goodwill and other intangible assets.

Allowance for Credit Losses

The Company maintains an allowance for credit losses to cover the estimated expected credit losses over the expected contractual life of the loan portfolio. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. Allocations of the allowance may be made for specific loans, but the entire allowance is available for any loan that, in management's judgment, should be charged-off. A provision for credit losses is charged to operations based on management's periodic evaluation of the necessary allowance balance. Evaluations are conducted at least quarterly and more often if deemed necessary. The ultimate recovery of all loans is susceptible to future market factors beyond the Company's control.

The Company has an established process to determine the adequacy of the allowance for credit losses. The determination of the allowance is inherently subjective, as it requires significant estimates, including the amounts and timing of expected future cash flows on individually analyzed loans, estimated losses on other classified loans and pools of homogeneous loans, and consideration of past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions, reasonable and supportable forecasts and other factors, all of which may be susceptible to significant change. The allowance consists of two components of allocations, specific and general. These two components represent the total allowance for credit losses deemed adequate to cover expected credit losses over the expected life of the loan portfolio.

Commercial and agricultural loans are subject to a standardized grading process administered by an internal loan review function. The need for specific reserves is considered for credits when: (a) the customer's cash flow or net worth appears insufficient to repay the loan; (b) the loan has been criticized in a regulatory examination; (c) the loan is on non-accrual; or (d) other reasons where the ultimate collectability of the loan is in question, or the loan characteristics require special monitoring.

Specific reserves on individually analyzed loans are determined by comparing the loan balance to the present value of expected cash flows or expected collateral proceeds. Allocations are also applied to categories of loans not individually analyzed but for which the rate of loss is expected to be greater than other similar type loans, including non-performing consumer or residential real estate loans. Such allocations are based on past loss experience, reasonable and supportable forecasts and information about specific borrower situations and estimated collateral values.

General allocations are made for commercial and agricultural loans that are graded as substandard and special mention, but are not individually analyzed for specific reserves as well as other pools of loans, including non-classified loans, homogeneous portfolios of consumer and residential real estate loans, and loans within certain industry categories believed to present unique risk of loss. General allocations of the allowance are primarily made based on historical averages for loan losses for these portfolios along with reasonable and supportable forecasts, judgmentally adjusted for economic, external and internal quantitative and qualitative factors and portfolio trends. Economic factors include evaluating changes in international, national, regional and local economic and business conditions that affect the collectability of the loan portfolio. Internal factors include evaluating changes in lending policies and procedures; changes in the nature and volume of the loan portfolio; and changes in experience, ability and depth of lending management and staff.

The allowance for credit losses for loans represents management's estimate of all expected credit losses over the expected contractual life of the loan portfolio. Determining the appropriateness and adequacy of the allowance is complex and requires judgment by management about the effect of matters that are inherently uncertain. Subsequent evaluations of the loan portfolio may result in significant changes in the allowance for credit losses in future periods.

The Company uses a number of economic variables in its scenarios to estimate the allowance for credit losses, with the most significant drivers being an unemployment rate forecast, gross domestic product and the agricultural producer price index, as well as qualitative adjustments. Historical loss rates from periods where the average unemployment rate, gross domestic product and agricultural producer pricing index matches the forecast range are considered when calculating the forecast period loss rate. The impact of the changes in the unemployment and gross domestic product forecast range between March 31, 2023 and December 31, 2022, resulted in a decrease in the allowance for credit losses of approximately \$600,000.

Based on sensitivity analysis of all portfolios, a 0.050% change (slight improvement or decline on the Company's scale) in all ten qualitative risk factors would have a \$1,900,000 impact on the reserve allocation. The sensitivity and related range of impact is a hypothetical analysis and is not intended to represent management's judgements or assumptions of qualitative loss

factors that were utilized at March 31, 2023 in estimation of the allowance for credit losses on loans recognized on the Consolidated Balance Sheets.

Securities Valuation

Available-for-sale debt securities in unrealized loss positions are evaluated for impairment related to credit losses at least quarterly. For available-for-sale debt securities in an unrealized loss position, the Company assesses whether we intend to sell, or it is more likely than not that we will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For available-for sale debt securities that do not meet the criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security and the issuer, among other factors. If this assessment indicates that a credit loss exists, the Company compares the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis for the security, a credit loss exists and an allowance for credit losses is recorded, limited to the amount that the fair value of the security is less than its amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income (loss), net of applicable taxes. No allowance for credit losses for available-for-sale debt securities was needed at March 31, 2023. Accrued interest receivable on available-for-sale debt securities is excluded from the estimate of credit losses. As of March 31, 2023, gross unrealized gains on the securities available-for-sale portfolio totaled approximately \$1,202,000 and gross unrealized losses totaled approximately \$292,613,000. The net amount of these two items, net of applicable taxes, is included in accumulated other comprehensive income (loss).

Equity securities that do not have readily determinable fair values are carried at cost, less impairment with observable price changes being recognized in earnings.

Income Tax Expense

Income tax expense involves estimates related to the valuation allowance on deferred tax assets and loss contingencies related to exposure from tax examinations presumed to occur.

A valuation allowance reduces deferred tax assets to the amount management believes is more likely than not to be realized. In evaluating the realization of deferred tax assets, management considers the likelihood that sufficient taxable income of appropriate character will be generated within carry-back and carry-forward periods, including consideration of available tax planning strategies. Tax-related loss contingencies, including assessments arising from tax examinations and tax strategies, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. In considering the likelihood of loss, management considers the nature of the contingency, the progress of any examination or related protest or appeal, the views of legal counsel and other advisors, experience of the Company or other enterprises in similar matters, if any, and management's intended response to any assessment.

Goodwill and Other Intangible Assets

Goodwill resulting from business combinations represents the excess of the purchase price over the fair value of the net assets of businesses acquired. Goodwill resulting from business combinations is generally determined as the excess of the fair value of the consideration transferred, plus the fair value of any noncontrolling interests in the acquiree, over the fair value of the net assets acquired and liabilities assumed as of the acquisition date. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but tested for impairment at least annually. The Company has selected December 31 as the date to perform the annual impairment test. Goodwill is the only intangible asset with an indefinite life on the Company's balance sheet. No impairment to Goodwill was indicated based on year-end testing and no triggering events occurred in 2023 causing reassessment.

Intangible assets with definite useful lives are amortized over their estimated useful lives to their estimated residual values. Other intangible assets consist of core deposit and acquired customer relationship intangible assets. They are initially measured at fair value and then are amortized over their estimated useful lives, which range from 6 to 10 years.

RESULTS OF OPERATIONS

Net Income:

Net income for the quarter ended March 31, 2023 totaled \$20,807,000, or \$0.71 per share, an increase of 129% on a per share basis compared with the first quarter 2022 net income of \$9,067,000, or \$0.31 per share. The first quarter of 2022 was significantly impacted by costs associated with the CUB acquisition which closed effective January 1, 2022.

Net Interest Income:

The following table summarizes net interest income (on a tax-equivalent basis) for the three months ended March 31, 2023 and 2022. For tax-equivalent adjustments, an effective tax rate of 21% was used for both periods⁽¹⁾.

Average Balance Sheet (Tax-equivalent basis / dollars in thousands)						
	Three Months Ended March 31, 2023			Three Months Ended March 31, 2022		
	Principal Balance	Income / Expense	Yield / Rate	Principal Balance	Income / Expense	Yield / Rate

⁽¹⁾ Effective tax rates were determined as though interest earned on the Company's investments in municipal bonds and loans was fully taxable.

⁽²⁾ Loans held-for-sale and non-accruing loans have been included in average loans.

During the first quarter of 2023, net interest income, on a non tax-equivalent basis, totaled \$49,009,000, an increase of \$2,101,000, or 4%, compared to the first quarter of 2022 net interest income of \$46,908,000.

The increase in net interest income during the first quarter of 2023 compared with the first quarter of 2022 was primarily attributable to an improved net interest margin driven by the rise in market interest rates.

The tax equivalent net interest margin for the quarter ended March 31, 2023 was 3.69% compared with 3.13% in the first quarter of 2022. The improvement in the net interest margin during the first quarter of 2023 compared with the first quarter of 2022 was largely attributable to increased market interest rates resulting in improved yields on earning assets that outpaced increased cost of funds during 2023. The cost of funds continued to accelerate higher in the first quarter of 2023 due to the

continued increase of market interest rates, very competitive deposit pricing in the marketplace, customers actively looking for yield opportunities within and outside the banking industry and a change in the Company's deposit composition.

The Company's net interest margin and net interest income have been impacted by accretion of loan discounts on acquired loans. Accretion of discounts on acquired loans totaled \$530,000 during the first quarter of 2023 and \$1,112,000 during the first quarter of 2022. Accretion of loan discounts on acquired loans contributed approximately 4 basis points to the net interest margin in the first quarter of 2023 and 7 basis points in the first quarter of 2022.

Provision for Credit Losses:

The Company provides for credit losses through regular provisions to the allowance for credit losses. The provision is affected by net charge-offs on loans and changes in specific and general allocations of the allowance. During the quarter ended March 31, 2023, the Company recorded a provision for credit losses of \$1,100,000 compared with a provision for credit losses of \$5,200,000 during the first quarter of 2022. During the first quarter of 2022, the provision for credit losses included \$6,300,000 for the Day 1 CECL addition to the allowance for credit loss related to the CUB acquisition.

Net charge-offs totaled \$953,000, or 10 basis points on an annualized basis, of average loans outstanding during the first quarter of 2023 compared with \$256,000, or 3 basis points, of average loans during the first quarter of 2022.

The provision for credit losses made during the three months ended March 31, 2023 was made at a level deemed necessary by management to absorb expected losses in the loan portfolio. A detailed evaluation of the adequacy of the allowance for credit losses is completed quarterly by management, the results of which are used to determine provision for credit losses. Management estimates the allowance balance required using past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions and reasonable and supportable forecasts along with other qualitative and quantitative factors.

Non-interest Income:

During the quarter ended March 31, 2023, non-interest income totaled \$14,967,000, a decrease of \$1,221,000, or 8%, compared with the first quarter of 2022. The decrease in non-interest income during the first quarter of 2023 compared to the first quarter of 2022 was in large part attributable to lower gains on sales of loans, lower insurance revenues and lower net gains on sales of securities, partially offset by increased interchange fee income.

Non-interest Income (dollars in thousands)	Three Months Ended March 31,		Change From Prior Period	
	2023	2022	Amount Change	Percent Change
Wealth Management Fees	\$ 2,644	\$ 2,638	\$ 6	— %
Service Charges on Deposit Accounts	2,788	2,683	105	4
Insurance Revenues	3,135	3,721	(586)	(16)
Company Owned Life Insurance	401	458	(57)	(12)
Interchange Fee Income	4,199	3,627	572	16
Other Operating Income	1,211	1,268	(57)	(4)
Subtotal	14,378	14,395	(17)	—
Net Gains on Sales of Loans	587	1,421	(834)	(59)
Net Gains on Securities	2	372	(370)	(99)
Total Non-interest Income	\$ 14,967	\$ 16,188	\$ (1,221)	(8)

Insurance Revenues decreased \$586,000, or 16%, during the first quarter of 2023 compared the the first quarter of 2022 and was primarily attributable to decreased contingency revenue. Contingency revenue during the first quarter of 2023 totaled \$945,000 compared with \$1,620,000, during the first quarter of 2022. Contingency revenue is reflective of claims and loss experience with insurance carriers that the Company represents through its property and casualty insurance agency. Typically, the majority of contingency revenue is recognized during the first quarter of the year.

Interchange fee income increased \$572,000, or 16%, during the quarter ended March 31, 2023 compared with the first quarter of 2022. The increase in the level of fees during the first quarter of 2023 compared with the first quarter of 2022 was due to increased card utilization by customers.

Net gains on sales of loans declined \$834,000, or 59%, during the first quarter of 2023 compared with the first quarter of 2022. The decline in the first quarter of 2023 compared with the first quarter of 2022 was largely related to a lower volume of loans sold and lower pricing levels. Loan sales totaled \$23.4 million during the first quarter of 2023 compared with \$49.3 million during the first quarter of 2022.

The Company realized \$2,000 in gains on sales of securities during the three months ended March 31, 2023 compared with \$372,000 during the first quarter of 2022. The sales of securities in both periods was completed as part of modest shifts in the allocations within the securities portfolio.

Non-interest Expense:

During the quarter ended March 31, 2023, non-interest expense totaled \$37,616,000, a decline of \$10,544,000, or 22%, compared with the first quarter of 2022. The first quarter of 2022 non-interest expenses included approximately \$11,705,000 of non-recurring acquisition-related expenses for the acquisition of CUB.

Non-interest Expense (dollars in thousands)	Three Months Ended March 31,		Change From Prior Period	
	2023	2022	Amount Change	Percent Change
Salaries and Employee Benefits	\$ 21,846	\$ 23,088	\$ (1,242)	(5)%
Occupancy, Furniture and Equipment Expense	3,820	3,809	11	—
FDIC Premiums	741	476	265	56
Data Processing Fees	2,755	7,724	(4,969)	(64)
Professional Fees	1,562	2,363	(801)	(34)
Advertising and Promotion	1,167	1,138	29	3
Intangible Amortization	785	1,017	(232)	(23)
Other Operating Expenses	4,940	8,545	(3,605)	(42)
Total Non-interest Expense	\$ 37,616	\$ 48,160	\$ (10,544)	(22)

Salaries and benefits declined \$1,242,000, or 5%, during the quarter ended March 31, 2023 compared with the first quarter of 2022. The decline in salaries and benefits during the first quarter of 2023 compared with the first quarter of 2022 was largely related to approximately \$1,470,000 of acquisition-related salary and benefit costs of a non-recurring nature in the first quarter of 2022 related to the CUB acquisition.

FDIC premiums increased \$265,000, or 56%, during the quarter ended March 31, 2023 compared with the first quarter of 2022. The increase in the first quarter of 2023 compared with the first quarter of 2022 was primarily related to an industry-wide 2 basis point increase in the base FDIC premium assessment effective January 1, 2023.

Data processing fees declined \$4,969,000, or 64%, during the first quarter of 2023 compared with the first quarter of 2022. The decline in data processing fees during the first quarter of 2023 compared with the same period of the prior year was driven by acquisition-related costs which totaled approximately \$4,973,000 during the first quarter of 2022.

Professional fees declined \$801,000, or 34%, in the first three months of 2023 compared with the same period of 2022. The decline in the first three months of 2023 compared with the same period of 2022 was primarily due to merger related professional fees associated with the CUB acquisition that totaled approximately \$1,336,000 during the first quarter of 2022.

Other operating expenses declined \$3,605,000, or 42%, during the first quarter of 2023 compared with the first quarter of 2022. The decline in the first quarter of 2023 compared with the same period of 2022 was attributable to acquisition-related costs that totaled approximately \$3,733,000 in the first quarter of 2022. The acquisition-related costs were primarily vendor contract termination costs.

Income Taxes:

The Company's effective income tax rate was 17.6% and 6.9%, respectively, during the three months ended March 31, 2023 and 2022. The lower effective tax rate during the first quarter of 2022 as compared with the first quarter of 2023 was the result of non-taxable sources of income being a greater component of pre-tax income. The lower level of pre-tax income in the first quarter of 2022 was driven in large part by acquisition costs and the Day 1 CECL provision associated with the CUB merger. The effective tax rate in all periods presented was lower than the blended statutory rate resulting primarily from the Company's tax-exempt investment income on securities, loans and company-owned life insurance, income tax credits generated from affordable housing projects, and income generated by subsidiaries domiciled in a state with no state or local income tax.

FINANCIAL CONDITION

Total assets for the Company totaled \$5.997 billion at March 31, 2023, representing a decline of \$159.1 million compared with year-end 2022. The decline in total assets at March 31, 2023 compared with December 31, 2022 was largely attributable to a decline in total deposits which in turn has led to declines in the Company's short-term investments and securities portfolio. Federal funds sold and other short-term investments totaled \$9.8 million at March 31, 2023 compared with \$41.9 million at year-end 2022.

Securities available for sale declined \$91.4 million as of March 31, 2023 compared with December 31, 2022. The changes in the available for sale securities portfolio during the first quarter of 2023 compared with year-end 2022 was largely attributable to the Company's utilization of cash flows from the securities portfolio to partially fund deposit declines during the first quarter, which were partially offset by an increase in the fair value of the portfolio. Total cash flow generated from the portfolio totaled approximately \$147.0 million during the first quarter of 2023, reflecting principal and interest payments as well as a modest level of securities sales. Current projections indicate approximately \$160.0 million in principal and interest cash flows from the portfolio over the next twelve months with rates unchanged.

March 31, 2023 total loans declined \$15.8 million, or less than 1% on a linked quarter basis, compared with December 31, 2022. The decline during the first quarter of 2023 compared with year-end 2022 was driven by a seasonal decline in agricultural loans of approximately \$38.8 million, or 9% on a linked quarter basis, and a decline in commercial and industrial loans of \$9.2 million, or 1% on a linked quarter basis. These declines were somewhat offset by an increased level of commercial real estate loans which grew \$33.4 million, or 2% on a linked quarter basis. Retail loans, which include home equity and consumer loans and residential mortgage loans, remained relatively stable during the first quarter of 2023 compared with year-end 2022.

End of Period Loan Balances: (dollars in thousands)	March 31, 2023	December 31, 2022	Current Period Change
Commercial and Industrial Loans and Leases	\$ 667,306	\$ 676,502	\$ (9,196)
Commercial Real Estate Loans	2,000,237	1,966,884	33,353
Agricultural Loans	378,587	417,413	(38,826)
Home Equity and Consumer Loans	376,398	377,164	(766)
Residential Mortgage Loans	350,338	350,682	(344)
Total Loans	\$ 3,772,866	\$ 3,788,645	\$ (15,779)

The following table indicates the breakdown of the allowance for credit losses for the periods indicated (dollars in thousands):

	March 31, 2023	December 31, 2022
Commercial and Industrial Loans and Leases	\$ 13,799	\$ 13,958
Commercial Real Estate Loans	22,062	21,598
Agricultural Loans	3,887	4,188
Home Equity and Consumer Loans	2,287	2,196
Residential Mortgage Loans	2,280	2,228
Unallocated	—	—
Total Allowance for Credit Losses	\$ 44,315	\$ 44,168

The Company's allowance for credit losses totaled \$44.3 million at March 31, 2023 compared to \$44.2 million at December 31, 2022. The allowance for credit losses represented 1.18% of period-end loans at March 31, 2023 compared with 1.17% at December 31, 2022.

The Company adopted ASU No. 2016-13, Financial Instruments - Credit Losses (Topic 326) ("CECL") on January 1, 2020. The Company added \$9.4 million to the allowance for credit losses in conjunction with the closing of the CUB acquisition on January 1, 2022, related to the CUB loan portfolio. Of the increase in the allowance for credit losses for the CUB portfolio, \$6.3 million was recorded through the provision for credit losses on "Day 1" under the CECL model for non-PCD loans. The Company also acquired \$29.9 million in PCD loans for which the Company recorded a credit adjustment of \$3.1 million which was included in the allowance for credit losses.

Under the CECL model, certain acquired loans continue to carry a fair value discount as well as an allowance for credit losses. As of March 31, 2023, the Company held net discounts on acquired loans of \$5.4 million which included \$2.2 million related to the CUB loan portfolio.

The following is an analysis of the Company's non-performing assets at March 31, 2023 and December 31, 2022:

Non-performing Assets: (dollars in thousands)	March 31, 2023	December 31, 2022
Non-accrual Loans	\$ 13,495	\$ 12,888
Past Due Loans (90 days or more)	1,098	1,427
Total Non-performing Loans	14,593	14,315
Other Real Estate	—	—
Total Non-performing Assets	\$ 14,593	\$ 14,315
Restructured Loans	\$ —	\$ —
Non-performing Loans to Total Loans	0.39 %	0.38 %
Allowance for Credit Loss to Non-performing Loans	303.67 %	308.54 %

The following table presents non-accrual loans and loans past due 90 days or more still on accrual by class of loans:

	Non-Accrual Loans		Loans Past Due 90 Days or More & Still Accruing	
	March 31, 2023	December 31, 2022	March 31, 2023	December 31, 2022
Commercial and Industrial Loans and Leases	\$ 8,583	\$ 7,936	\$ —	\$ 1,427
Commercial Real Estate Loans	1,996	1,950	517	—
Agricultural Loans	1,312	1,062	581	—
Home Equity Loans	665	310	—	—
Consumer Loans	159	400	—	—
Residential Mortgage Loans	780	1,230	—	—
Total	\$ 13,495	\$ 12,888	\$ 1,098	\$ 1,427

Non-performing assets totaled \$14.6 million at March 31, 2023 compared to \$14.3 million at December 31, 2022. Non-performing assets represented 0.24% of total assets at March 31, 2023 compared to 0.23% at year end 2022. Non-performing loans totaled \$14.6 million at March 31, 2023 compared to \$14.3 million at December 31, 2022. Non-performing loans represented 0.39% of total loans at March 31, 2023 compared to 0.38% at December 31, 2022.

March 31, 2023 total deposits declined \$195.2 million, or 4% on a linked quarter basis, compared to December 31, 2022. The overall decline in deposits slowed throughout the first quarter of 2023. Deposits declined \$13.7 million, or 7% of the quarterly decline, in the month of March 2023, compared with \$31.7 million, or 16% of the total decline, in February 2023 and \$149.8 million, or 77% of the total decline, in January 2023. The core deposit base remains diverse with stable and manageable exposure to uninsured and uncollateralized deposits of approximately 21% of total deposits.

A competitive market driven by rising interest rates has been a significant contributing factor to the decline in total deposits during the first quarter of 2023 compared with year-end 2022. The Company has also continued to see customer movement from both interest bearing and non-interest bearing transactional accounts to time deposits due primarily to the rising interest rate environment. Additionally, a meaningful level of the outflow of deposits was captured within the Company's wealth management group in both the first quarter of 2023 and over the course of the past several quarters.

End of Period Deposit Balances: (dollars in thousands)	March 31, 2023	December 31, 2022	Current Period Change
Non-interest-bearing Demand Deposits	\$ 1,601,206	\$ 1,691,804	\$ (90,598)
Interest-bearing Demand, Savings, & Money Market Accounts	3,039,393	3,229,778	(190,385)
Time Deposits < \$100,000	245,104	235,219	9,885
Time Deposits of \$100,000 or more	269,192	193,250	75,942
Total Deposits	\$ 5,154,895	\$ 5,350,051	\$ (195,156)

March 31, 2023 total borrowings declined \$12.8 million, or 6% on a linked quarter basis, compared to December 31, 2022. The decline in the first quarter of 2023 compared with year-end 2022 was related to a reduction of short-term secured borrowings and federal funds purchased, as the Company relied on cash flows from its securities portfolio to assist in meeting its liquidity and operational requirements.

Capital Resources:

As of March 31, 2023, shareholders' equity increased by \$46.9 million to \$605.3 million compared with \$558.4 million at year-end 2022. The increase in shareholders' equity was primarily attributable to an increase in retained earnings of \$13.5 million due to net income of \$20.8 million, which was partially offset by the payment of \$7.4 million in shareholder dividends. Also increasing shareholder's equity was the increase in accumulated other comprehensive income (loss) of \$32.9 million related to the increase in value of the Company's available-for-sale securities portfolio driven by changes in market interest rates during the first three months of 2023.

Shareholders' equity represented 10.1% of total assets at March 31, 2023 and 9.1% of total assets at December 31, 2022. Shareholders' equity included \$188.9 million of goodwill and other intangible assets at March 31, 2023 compared to \$189.8 million of goodwill and other intangible assets at December 31, 2022.

On January 31, 2022, the Company's Board of Directors approved a plan to repurchase up to 1.0 million shares of the Company's outstanding common stock. On a share basis, the amount of common stock subject to the repurchase plan represented approximately 3% of the Company's outstanding shares on the date it was approved. The Company is not obligated to purchase any shares under the plan, and the plan may be discontinued at any time. The actual timing, number and share price of shares purchased under the repurchase plan will be determined by the Company at its discretion and will depend upon such factors as the market price of the stock, general market and economic conditions and applicable legal requirements. The Company has not repurchased any shares of common stock under the repurchase plan.

Federal banking regulations provide guidelines for determining the capital adequacy of bank holding companies and banks. These guidelines provide for a more narrow definition of core capital and assign a measure of risk to the various categories of assets. The Company is required to maintain minimum levels of capital in proportion to total risk-weighted assets and off-balance sheet exposures.

The current risk-based capital rules, as adopted by federal banking regulators, are based upon guidelines developed by the Basel Committee on Banking Supervision and reflect various requirements of the Dodd-Frank Act (the "Basel III Rules"). The Basel III Rules require banking organizations to, among other things, maintain a minimum ratio of Total Capital to risk-weighted assets, a minimum ratio of Tier 1 Capital to risk-weighted assets, a minimum ratio of "Common Equity Tier 1 Capital" to risk-weighted assets, and a minimum leverage ratio (calculated as the ratio of Tier 1 Capital to adjusted average consolidated assets). In addition, under the Basel III Rules, in order to avoid limitations on capital distributions, including dividend payments, the Company is required to maintain a 2.5% capital conservation buffer above the adequately capitalized regulatory capital ratios. At March 31, 2023, the capital levels for the Company and its subsidiary bank remained well in excess of the minimum amounts needed for capital adequacy purposes and the Bank's capital levels met the necessary requirements to be considered well-capitalized.

The table below presents the Company's consolidated and the subsidiary bank's capital ratios under regulatory guidelines:

	3/31/2023 Ratio	12/31/2022 Ratio	Minimum for Capital Adequacy Purposes ⁽¹⁾	Well-Capitalized Guidelines
Total Capital (to Risk Weighted Assets)				
Consolidated	15.89 %	15.45 %	8.00 %	N/A
Bank	14.37 %	14.07 %	8.00 %	10.00 %
Tier 1 (Core) Capital (to Risk Weighted Assets)				
Consolidated	14.32 %	13.97 %	6.00 %	N/A
Bank	13.63 %	13.42 %	6.00 %	8.00 %
Common Tier 1 (CET 1) Capital Ratio (to Risk Weighted Assets)				
Consolidated	13.60 %	13.26 %	4.50 %	N/A
Bank	13.63 %	13.42 %	4.50 %	6.50 %
Tier 1 Capital (to Average Assets)				
Consolidated	11.08 %	10.50 %	4.00 %	N/A
Bank	10.55 %	10.09 %	4.00 %	5.00 %

⁽¹⁾ Excludes capital conservation buffer.

In December 2018, the federal banking regulators approved a final rule to address changes to credit loss accounting under GAAP, including banking organizations' implementation of CECL. The final rule provides banking organizations the option to phase in over a three-year period the day-one adverse effects on regulatory capital that may result from the adoption of the new accounting standard. On March 27, 2020, in an action related to the CARES Act, the federal banking regulators announced an interim final rule to delay the estimated impact on regulatory capital stemming from the implementation of CECL. The interim final rule, which was finalized effective September 30, 2020, maintained the three-year transition option in the previous rule and provides banks the option to delay for two years an estimate of CECL's effect on regulatory capital, relative to the incurred loss methodology's effect on regulatory capital, followed by a three-year transition period (five-year transition option). The Company elected to adopt the five-year transition option and, as a result, began the required three-year phase-in by reflecting 25% of the previously deferred estimated capital impact of CECL in its regulatory capital effective January 1, 2022. An additional 25% was phased in on January 1, 2023 and another 25% will be phased in on each of January 1, 2024 and January 1, 2025 (at which time the cumulative effects of adopting CECL will have been fully phased into our regulatory capital). Under the five-year transition option, the amount of adjustments to regulatory capital that could be deferred until the phase-in period began included both the initial impact of our adoption of CECL at January 1, 2020 and 25% of subsequent changes in our allowance for credit losses during each quarter of the two-year period ended December 31, 2021.

Liquidity:

The Consolidated Statement of Cash Flows details the elements of changes in the Company's consolidated cash and cash equivalents. Total cash and cash equivalents decreased \$38.8 million during the three months ended March 31, 2023 ending at \$80.3 million. During the three months ended March 31, 2023, operating activities resulted in net cash inflows of \$31.5 million. Investing activities resulted in net cash inflows of \$145.0 million during the three months ended March 31, 2023. Financing activities resulted in net cash outflows for the three months ended March 31, 2023 of \$215.3 million.

The Company's primary source of funding is its customer deposits, supplemented by brokered deposits, overnight borrowings from other financial institutions, and securities sold under agreements to repurchase. The membership of the Company's affiliate bank in the Federal Home Loan Bank System provides a significant additional source for both long and short-term collateralized borrowings. In addition, in March 2023, the FRB created the Bank Term Funding Program, a new facility established in response to recent liquidity concerns within the banking industry in part due to recent deposit runs that resulted in a few large bank failures. The program was designed to provide available additional funding to eligible depository institutions in order to help assure that banks have the ability to meet the needs of all their depositors. Under the program, eligible depository institutions can obtain loans of up to one year in length by pledging U.S. Treasuries, agency debt and mortgage-backed securities, and other qualifying assets as collateral. These assets will be valued at par. The program is intended to eliminate the need for depository institutions to quickly sell their securities when they are experiencing stress on their liquidity. As of the date of this Quarterly Report on Form 10-Q, the Company has not made any requests for loans under the program.

The parent company is a corporation separate and distinct from its bank and other subsidiaries. The Company uses funds at the parent-company level to pay dividends to its shareholders, to acquire or make other investments in other businesses or their securities or assets, to repurchase its stock from time to time, and for other general corporate purposes including debt service. The parent company does not have access at the parent-company level to the deposits and certain other sources of funds that are available to its bank subsidiary to support its operations. Instead, the parent company has historically derived most of its revenues from dividends paid to the parent company by its bank subsidiary. The Company's banking subsidiary is subject to statutory restrictions on its ability to pay dividends to the parent company. The parent company has in recent years supplemented the dividends received from its subsidiaries with borrowings. As of March 31, 2023, the parent company had approximately \$53.5 million of cash and cash equivalents available to meet its cash flow needs.

FORWARD-LOOKING STATEMENTS AND ASSOCIATED RISKS

The Company from time to time in its oral and written communications makes statements relating to its expectations regarding the future. These types of statements are considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The Company may include forward-looking statements in filings with the Securities and Exchange Commission ("SEC"), such as this Form 10-Q, in other written materials, and in oral statements made by senior management to analysts, investors, representatives of the media, and others. Such forward looking statements can include statements about the Company's net interest income or net interest margin; its adequacy of allowance for credit losses, levels of provisions for credit losses, and the quality of the Company's loans, investment securities and other assets; simulations of changes in interest rates; expected results from mergers with or acquisitions of other businesses; litigation results; tax estimates and recognition; dividend policy; parent company cash resources and cash requirements, and parent company capital resources; estimated cost savings, plans and objectives for future operations; and expectations about the Company's financial and business performance and other business matters as well as economic and market conditions and trends. They often can be identified by the use of words like "plan," "expect," "can," "might," "may," "will," "would," "could," "should," "intend," "project," "estimate," "believe" or "anticipate," or similar expressions.

Forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the forward-looking statement is made.

Readers are cautioned that, by their nature, all forward-looking statements are based on assumptions and are subject to risks, uncertainties, and other factors. Actual results may differ materially and adversely from the expectations of the Company that are expressed or implied by any forward-looking statement. The discussions in this Item 2 list some of the factors that could cause the Company's actual results to vary materially from those expressed or implied by any forward-looking statements. Other risks, uncertainties, and factors that could cause the Company's actual results to vary materially from those expressed or implied by any forward-looking statement include:

- unfavorable economic conditions, including a prolonged period of inflation, and the resulting adverse impact on, among other things, credit quality;
- the impacts related to or resulting from recent bank failures or adverse developments at other banks on general investor sentiment regarding the stability and liquidity of banks;
- the impacts of epidemics, pandemics or other infectious disease outbreaks;
- changes in competitive conditions;
- the introduction, withdrawal, success and timing of asset/liability management strategies or of mergers and acquisitions and other business initiatives and strategies;
- changes in customer borrowing, repayment, investment and deposit practices;
- changes in fiscal, monetary and tax policies;
- changes in financial and capital markets;
- potential deterioration in general economic conditions, either nationally or locally, resulting in, among other things, credit quality deterioration;
- the severity and duration of the COVID-19 pandemic and its impact on general economic and financial market conditions and our business, results of operations, and financial condition;
- our participation as a lender in the PPP;
- capital management activities, including possible future sales of new securities, or possible repurchases or redemptions by the Company of outstanding debt or equity securities;

- risks of expansion through acquisitions and mergers, such as unexpected credit quality problems of the acquired loans or other assets, unexpected attrition of the customer base or employee base of the acquired institution or branches, and difficulties in integration of the acquired operations;
- factors driving impairment charges on investments;
- the impact, extent and timing of technological changes;
- potential cyber-attacks, information security breaches and other criminal activities;
- litigation liabilities, including related costs, expenses, settlements and judgments, or the outcome of matters before regulatory agencies, whether pending or commencing in the future;
- actions of the Federal Reserve Board;
- the possible effects of the replacement of the London Interbank Offering Rate (LIBOR);
- the potential for increases to, and volatility in, the balance of our allowance for credit losses and related provision expense due to the current expected credit loss (CECL) standard;
- changes in accounting principles and interpretations;
- potential increases of federal deposit insurance premium expense, and possible future special assessments of FDIC premiums, either industry wide or specific to the Company's banking subsidiary;
- actions of the regulatory authorities under the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") and the Federal Deposit Insurance Act and other possible legislative and regulatory actions and reforms;
- impacts resulting from possible amendments or revisions to the Dodd-Frank Act and the regulations promulgated thereunder, or to Consumer Financial Protection Bureau rules and regulations;
- the continued availability of earnings and excess capital sufficient for the lawful and prudent declaration and payment of cash dividends; and
- with respect to the merger with CUB, the possibility that the anticipated benefits of the transaction, including anticipated cost savings and strategic gains, are not realized when expected or at all, including as a result of the impact of, or problems arising from, the integration of the two companies, unexpected credit quality problems of the acquired loans or other assets, or unexpected attrition of the customer base of the acquired institution or branches.

Such statements reflect our views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to the operations, results of operations, growth strategy and liquidity of the Company. Readers are cautioned not to place undue reliance on these forward-looking statements.

Investors should consider these risks, uncertainties, and other factors, in addition to those mentioned by the Company in its Annual Report on Form 10-K for its fiscal year ended December 31, 2022, this Quarterly Report on Form 10-Q, and other SEC filings from time to time, when considering any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's exposure to market risk is reviewed on a regular basis by the Asset/Liability Committee and Boards of Directors of the parent company and its subsidiary bank. Primary market risks which impact the Company's operations are liquidity risk and interest rate risk.

The liquidity of the parent company is dependent upon the receipt of dividends from its subsidiary bank, which is subject to certain regulatory limitations. The Bank's source of funding is predominately core deposits, maturities of securities, repayments of loan principal and interest, federal funds purchased, securities sold under agreements to repurchase, and borrowings from the Federal Home Loan Bank and the Federal Reserve Bank.

The Company monitors interest rate risk by the use of computer simulation modeling to estimate the potential impact on its net interest income under various interest rate scenarios, and by estimating its static interest rate sensitivity position. Another method by which the Company's interest rate risk position can be estimated is by computing estimated changes in its net portfolio value ("NPV"). This method estimates interest rate risk exposure from movements in interest rates by using interest rate sensitivity analysis to determine the change in the NPV of discounted cash flows from assets and liabilities. NPV represents the market value of portfolio equity and is equal to the estimated market value of assets minus the estimated market value of liabilities.

Computations for measuring both net interest income and NPV are based on a number of assumptions, including the relative levels of market interest rates and prepayments in mortgage loans and certain types of investments. These computations do not contemplate any actions management may undertake in response to changes in interest rates, and should not be relied upon as indicative of actual results. In addition, certain shortcomings are inherent in the method of computing both net interest income and NPV. Should interest rates remain or decrease below current levels, the proportion of adjustable rate loans could decrease in future periods due to refinancing activity. In the event of an interest rate change, prepayment levels would likely be different from those assumed in the modeling. Lastly, the ability of many borrowers to repay their adjustable rate debt may decline during a rising interest rate environment.

The Company from time to time utilizes derivatives to manage interest rate risk. Management continuously evaluates the merits of such interest rate risk products but does not anticipate the use of such products to become a major part of the Company's risk management strategy.

The table below provides an assessment of the risk to net interest income over the next 12 months in the event of a sudden and sustained 1% and 2% increase and decrease in prevailing interest rates (dollars in thousands).

Interest Rate Sensitivity as of March 31, 2023 - Net Interest Income

Changes in Rates	Net Interest Income	
	Amount	% Change
+2%	\$ 204,482	1.14 %
+1%	203,720	0.77 %
Base	202,168	—
-1%	198,661	(1.73)%
-2%	194,997	(3.55)%

The above table is a measurement of the Company's net interest income at risk, assuming a static balance sheet as of March 31, 2023 and instantaneous parallel changes in interest rates. The Company also monitors interest rate risk under other scenarios including a more gradual movement in market interest rates. This type of scenario can at times produce different modeling results in measuring interest rate risk sensitivity.

The table below provides an assessment of the risk to NPV in the event of a sudden and sustained 1% and 2% increase and decrease in prevailing interest rates (dollars in thousands).

Interest Rate Sensitivity as of March 31, 2023 - Net Portfolio Value

Changes in Rates	Net Portfolio Value		Net Portfolio Value as a % of Present Value of Assets	
	Amount	% Change	NPV Ratio	Change
+2%	\$ 719,515	(10.60)%	13.59 %	(60) b.p.
+1%	761,429	(5.39)%	13.90 %	(29) b.p.
Base	804,804	—	14.19 %	—
-1%	833,354	3.55 %	14.22 %	3 b.p.
-2%	850,222	5.64 %	14.05 %	(14) b.p.

This Item 3 includes forward-looking statements. See "Forward-looking Statements and Associated Risks" included in Part I, Item 2 of this Report for a discussion of certain factors that could cause the Company's actual exposure to market risk to vary materially from that expressed or implied above. These factors include possible changes in economic conditions; interest rate fluctuations, competitive product and pricing pressures within the Company's markets; and equity and fixed income market

fluctuations. Actual experience may also vary materially to the extent that the Company's assumptions described above prove to be inaccurate.

Item 4. Controls and Procedures

As of March 31, 2023, the Company carried out an evaluation, under the supervision and with the participation of its principal executive officer and principal financial officer, of the effectiveness of the design and operation of its disclosure controls and procedures. Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures were, as of that date, effective in timely alerting them to material information required to be included in the Company's periodic reports filed with the Securities and Exchange Commission. There are inherent limitations to the effectiveness of systems of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective systems of disclosure controls and procedures can provide only reasonable assurances of achieving their control objectives.

There was no change in the Company's internal control over financial reporting that occurred during the Company's first fiscal quarter of 2023 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

There are no pending legal proceedings, other than routine litigation incidental to the business of the Company's subsidiaries, to which the Company or any of its subsidiaries is a party or of which any of their property is the subject.

Item 1A. Risk Factors

Except for the additional risk factors set forth below, there have been no material changes to the risk factors previously disclosed in German American Bancorp, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2022.

Adverse developments affecting the financial services industry, such as recent bank failures or concerns involving liquidity, may have a material effect on our operations.

The failures of Silicon Valley Bank and Signature Bank in March 2023, followed by the failure of First Republic Bank in May 2023, have resulted in general uncertainty for the financial services industry and have caused concerns relative to the adequacy of liquidity in the banking sector as a whole. A financial institution's liquidity reflects its ability to meet customer demand for loans, accommodating possible outflows in deposits and accessing alternative sources of funds when needed, while at the same time taking advantage of interest rate market opportunities. The ability to manage liquidity is fundamental to a financial institution's business and success. The recent bank failures highlight the potential results of an insured depository institution unexpectedly having to obtain needed liquidity to satisfy deposit withdrawal requests, including how quickly such requests can accelerate once uninsured depositors lose confidence in an institution's ability to satisfy its obligations to depositors. Current market uncertainties and other external factors may impact the competitive landscape for deposits in the banking industry in an unpredictable manner. In addition, the rising interest rate environment has continued to increase competition for liquidity and the premium at which liquidity is available to meet funding needs. These possible impacts may adversely affect our future operating results, including net income, and negatively impact capital.

Regulatory requirements arising from recent events in the financial services industry, or the application of current regulations, could increase our expenses and affect our operations.

We anticipate the potential of new regulations for banks of similar size to the Company's banking subsidiary, German American Bank, designed to address the recent developments in the financial services industry, which may increase our costs of doing business and reduce our profitability. Among other things, there may be an increased focus by both regulators and investors on deposit composition and the level of uninsured deposits. We also expect that another result of the recent bank failures, as well as any future bank failures, will be an increase to our FDIC insurance premiums in future years, further increasing our cost of doing business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer Purchases of Equity Securities**

The following table sets forth information regarding the Company's purchases of its common shares during each of the three months ended March 31, 2023.

Period	Total Number of Shares (or Units) Purchased	Average Price Paid Per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased under the Plans or Programs ⁽¹⁾
January 2023	—	—	—	1,000,000
February 2023	—	—	—	1,000,000
March 2023	—	—	—	1,000,000
Total	—	—	—	

⁽¹⁾ On January 31, 2022, the Company's Board of Directors approved a plan to repurchase up to 1.0 million shares of the Company's outstanding common stock. On a share basis, the amount of common stock subject to the repurchase plan represented approximately 3% of the Company's outstanding shares on the date it was approved. The Company is not obligated to purchase any shares under the plan, and the plan may be discontinued at any time. The actual timing, number and share price of shares purchased under the repurchase plan will be determined by the Company at its discretion and will depend upon such factors as the market price of the stock, general market and economic conditions and applicable legal requirements. The Company has not repurchased any shares under the 2022 repurchase plan.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

The following exhibits are included with this Report or incorporated herein by reference.

Exhibit No.	Description
<u>3.1</u>	<u>Amended and Restated Articles of Incorporation of German American Bancorp, Inc., are incorporated by reference to Exhibit 3.1 of the Registrant's Current Report on Form 8-K filed May 26, 2020 (SEC File No. 001-15877).</u>
<u>3.2</u>	<u>Amended and Restated Bylaws of German American Bancorp, Inc. are incorporated by reference to Exhibit 3.1 of the Registrant's Current Report on Form 8-K filed July 1, 2020 (SEC File No. 001-15877).</u>
<u>4.1</u>	<u>Terms of Common Shares and Preferred Shares of the Registrant (included in Restatement of Articles of Incorporation) are incorporated by reference to Exhibit 3.1 to the Registrant's Current Report on Form 8-K filed May 26, 2020 (SEC File No. 001-15877).</u>
<u>4.2</u>	<u>Specimen stock certificate for Common Shares of the Registrant is incorporated by reference to Exhibit 99.1 to the Registrant's Current Report on Form 8-K filed October 21, 2010 (SEC File No. 001-15877).</u>
<u>4.3</u>	<u>Indenture, dated as of June 25, 2019, by and between German American Bancorp, Inc. and U.S. Bank National Association, as trustee, is incorporated by reference to Exhibit 4.1 of the Registrant's Current Report on Form 8-K filed June 25, 2019 (SEC File No. 001-15877).</u>
<u>4.4</u>	<u>Form of 4.50% Fixed-to-Floating Subordinated Note due 2029 of German American Bancorp, Inc. is incorporated by reference to Exhibit 4.2 of the Registrant's Current Report on Form 8-K filed June 25, 2019 (SEC File No. 001-15877).</u>

Sarbanes-Oxley Act of 2002, Section 302 Certification for Chairman and Chief Executive Officer

I, D. Neil Dauby, President and Chief Executive Officer of German American Bancorp, Inc., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of German American Bancorp, Inc. (the “registrant”):
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
