

## Ford to Provide Electric Vehicle Plan Update Thursday

DEARBORN, Mich., July 20, 2022 – Ford Motor Company on Thursday will share an update on the Ford+ plan to lead the electric vehicle revolution.

Ford will host a conference call for members of the media and investment community at 8 a.m. ET. Key Ford executives will provide details on how the company is building out its industrial system to reach a global production run rate of 600,000 EVs, growing to more than 2 million EV annual global run rate by 2026. A Q&A session will follow the presentation.

The conference call will be webcast live. Information on how to join can be found here:

**Thursday, July 21, at 8:00 a.m. ET**
