ROSELAND, N.J. – January 28, 2026 – ADP (Nasdaq: ADP), a global leader in HR and payroll solutions, today announced its second quarter fiscal 2026 financial results and updated its fiscal 2026 outlook.

Second Quarter Fiscal 2026 Consolidated Results

Compared to last year's second quarter, revenues increased 6% to \$5.4 billion and 5% on an organic constant currency basis. Net earnings increased 10% to \$1.1 billion, and adjusted net earnings increased 10% to \$1.1 billion. Adjusted EBIT increased 10% to \$1.4 billion, and adjusted EBIT margin increased 80 basis points to 26.0%. ADP's effective tax rate for the quarter was 23.2% on both a reported basis and an adjusted basis. Diluted EPS increased 11% to \$2.62, and adjusted diluted EPS increased 11% to \$2.62.

"ADP's strong second quarter results reflect the breadth of our innovative products, differentiated service, and exceptional experiences that we deliver for clients every day," said Maria Black, President and Chief Executive Officer, ADP. "Powered by the industry's largest and deepest HCM dataset, we combine our proprietary workforce insights with advanced automation to solve real workforce challenges and to ultimately build an easier, smarter and more human world of work."

"A continued focus on execution and driving new business bookings growth has enabled us to deliver strong revenue and earnings growth in the second quarter," said Peter Hadley, Chief Financial Officer, ADP. "Our updated guidance demonstrates our confidence in our ability to deliver on our financial commitments, while continuing to make strategic investments to support sustainable long-term growth."

Adjusted EBIT, adjusted EBIT margin, adjusted net earnings, adjusted diluted earnings per share, adjusted effective tax rate and organic constant currency are all non-GAAP financial measures. Please refer to the accompanying financial tables at the end of this release for a discussion of why ADP believes these measures are important and for a reconciliation of non-GAAP financial measures to their closest comparable GAAP financial measures.

Client Funds Extended Investment Strategy Fiscal 2026 Outlook

The interest assumptions in our outlook are based on Fed Funds futures contracts and various forward yield curves as of January 27, 2026. The Fed Funds futures contracts are used in the client short and corporate cash interest income outlook. A combination of various forward yield curves that reflect our investment mix, resulting in a blended rate of 3.8%, was used to forecast new purchase rates across the client and corporate extended and client long portfolios over the remainder of the fiscal year.

- Interest on funds held for clients of \$1.310 to \$1.330 billion; this is based on anticipated growth in client funds balances of 4% to 5% and an average yield that is anticipated to increase approximately 3.4%
- Total contribution from the client funds extended investment strategy of \$1.270 to \$1.290 billion

(A) We utilize a strategy by which we extend the maturities of our investment portfolio for funds held for clients and employ short-term financing arrangements to satisfy our short-term funding requirements related to client funds obligations. As part of our client funds investment strategy, we use daily collection of funds from our clients to satisfy other unrelated client funds obligations, rather than liquidating previously-collected client funds that have already been invested in available-for-sale securities.

(B) While "Corporate extended interest income" and "Short-term financing to support Client Funds Strategy," related to our client funds investment strategy, are non-GAAP measures, management believes this information is beneficial to reviewing the financial statements of ADP. Management believes this information is beneficial as it allows the reader to understand the extended investment strategy for ADP's client funds assets, corporate investments, and short-term borrowings.

Consolidated Statement of Adjusted / Non-GAAP Financial Information
(in millions, except per share amounts)
(Unaudited)

In addition to our GAAP results, we use the adjusted results and other non-GAAP metrics set forth in the table below to evaluate our operating performance in the absence of certain items and for planning and forecasting of future periods:

Adjusted Financial Measures	U.S. GAAP Measures
Adjusted EBIT	Net earnings
Adjusted provision for income taxes	Provision for income taxes
Adjusted net earnings	Net earnings
Adjusted diluted earnings per share	Diluted earnings per share
Adjusted effective tax rate	Effective tax rate
Organic constant currency	Revenues
Corporate extended interest income (see prior page)	Interest income
Short-term financing to Support Client Funds Extended Strategy (see prior page)	Interest expense

We believe that the exclusion of the identified items below helps us reflect the fundamentals of our underlying business model and analyze results against our expectations and against prior periods, and to plan for future periods by focusing on our underlying operations. We believe that the adjusted results provide relevant and useful information for investors because it allows investors to view performance in a manner similar to the method used by management and improves their ability to understand and assess our operating performance. The nature of these exclusions is for specific items that are not fundamental to our underlying business operations. Since these adjusted financial measures and other non-GAAP metrics are not measures of performance calculated in accordance with U.S. GAAP, they should not be considered in isolation from, as a substitute for, or superior to their corresponding U.S. GAAP measures, and they may not be comparable to similarly titled measures at other companies.

(a) In Adjusted EBIT, we include the interest income earned on investments associated with our client funds extended investment strategy and interest expense on borrowings related to our client funds extended investment strategy as we believe these amounts to be fundamental to the underlying operations of our business model. The adjustments in the table above represent the interest income and interest expense that are not related to our client funds extended investment strategy and are labeled as "All other interest expense" and "All other interest income."

(b) Represents a partial reversal of the workforce optimization initiative from fiscal 2024. Severance charges/(reversals) have been taken in the past and not included as an adjustment to get to adjusted results. Unlike severance charges/(reversals) in prior periods, this specific reversal relates to a broad-based, company-wide initiative.

(c) Represents (gains)/losses on investments made through our Corporate Venture Capital arm, ADP Ventures. (Gains)/losses on these investments may result from observable price changes, changes in ownership interest, and impairment charges. These adjustments may be highly variable, are predominantly non-cash, are outside our control, and are not fundamental to the underlying operations of our business model.

(d) In the six months ended December 31, 2024, this represents a reversal of a legal reserve recorded during the year ended June 30, 2023.

(e) The income tax provision was calculated based on the annualized marginal rate in effect during the quarter of the adjustment.

(f) The adjusted effective tax rate is calculated as our adjusted provision for income taxes divided by the sum of our adjusted net earnings plus our adjusted provision for income taxes.

The following table reconciles our reported growth rates to the non-GAAP measure of organic constant currency, which excludes the impact of acquisitions, the impact of dispositions, and the impact of foreign currency. The impact of acquisitions and dispositions is calculated by excluding the current year revenues of acquisitions until the one-year anniversary of the transaction and by excluding the prior year revenues of divestitures for the one-year period preceding the transaction. The impact of foreign currency is determined by calculating the current year results using foreign exchange rates consistent with the prior year. The PEO segment is not impacted by acquisitions, dispositions or foreign currency.
