About Repligen Corporation

Repligen Corporation is a life sciences company focused on the development, production and commercialization of products used in the process of manufacturing biological drugs. Our bioprocessing products are sold to major life sciences and biopharmaceutical companies worldwide. We are a leading manufacturer of Protein A, a critical reagent used to manufacture monoclonal antibody-based therapeutics. We also supply several growth factor products used to increase cell culture productivity in biomanufacturing. In the burgeoning area of disposable

biomanufacturing technologies, we have developed and market a series of OPUS[®] (Open Platform User Specified) single-use chromatography columns used in the biologics purification process. In addition to our core bioprocessing business, we have a portfolio of clinical-stage partnering assets, including two central nervous system orphan drug candidates and a pancreatic imaging agent in Phase 3 development. Repligen's corporate headquarters are located in Waltham, MA, USA, with an additional manufacturing facility in Lund, Sweden. For more information, please visit our website at www.repligen.com.
