### About Repligen Corporation

Repligen Corporation (NASDAQ:RGEN) is a bioprocessing company focused on the development, manufacture and commercialization of highly innovative products used to improve the process of manufacturing biologic drugs. Our bioprocessing products are sold to major life sciences companies, biopharmaceutical development companies and contract manufacturing organizations worldwide. We are the leading manufacturer of Protein A affinity ligands, a critical component of Protein A resins that are used to separate and purify monoclonal antibody-based therapeutics. In upstream processes, our XCell™ ATF systems and growth factors are used to accelerate and increase productivity during the cell culture stage of biologic drug manufacturing. In downstream processes, we developed and market our innovative line of OPUS® chromatography columns that we deliver pre-packed with our customers' choice of resin for their bench-scale through clinical production-scale purification needs. With the acquisition of TangenX, we also manufacture single-use Sius™ TFF cassettes and hardware, used in downstream protein concentration and filtration processes. Repligen's corporate headquarters are in Waltham, MA (USA) and our manufacturing facilities are located in Waltham, MA, Shrewsbury, MA, Lund, Sweden and Weingarten, Germany.
