Through the six months ended June 30, 2026, Amplex added approximately 400 new subscribers bringing the total broadband customers to 13,600 as compared to 13,200 total customers on June 30, 2025. Of the 13,600 total subscribers, Amplex has increased the fiber subscriber base by approximately 1,500 subscribers, an increase of 31% since June 30, 2025. Total fiber passings have increased approximately 39% to 18,000 since June 30, 2025. Amplex's customer base includes both residential and commercial customers.

As previously announced, Amplex was approved for and entered into a Reconnect Program Loan and Security Agreement ("Loan") with the Federal government acting through the Rural Electric Services ("RUS") for a principal amount of \$21.3 million. The Loan bears interest at a rate of 2% per annum, calculated by daily accrual. All accrued interest and principal on advances will be deferred for a three-year period ending on October 31, 2027, unless earlier payment is made by Amplex. At the end of the three-year deferral period, all unpaid accrued interest will be capitalized and added to the outstanding principal, and monthly payments will be established in an amount that amortizes the outstanding balance in equal payments over the remaining term of the Loan. The principal advanced pursuant to this Agreement and remaining unpaid, if any, and interest thereon, shall be due and payable on October 31, 2046. The RUS loan is being used to build out fiber in one specific area of Ohio where it was awarded. As of June 30, 2026, Amplex has drawn \$4.8 million under RUS.

Old Market Capital Corporation (f/k/a Nicholas Financial, Inc.) was previously a specialized consumer finance company. The Company restructured its operations in 2024 and now operates as a holding company which has a controlling interest in a broadband company, Amplex, and seeks to pursue additional controlling interests in other companies and sectors yet to be determined.
