Investor Presentation

Third Quarter 2025

Safe Harbor and other information

This presentation contains "forward-looking" statements that are based on our management's beliefs and assumptions and on information currently available to management. Forward-looking statements include information concerning our possible or assumed strategy, future operations, financing plans, operating model, financial position, future revenues, projected costs, competitive position, industry environment, potential growth opportunities, potential market opportunities, plans and objectives of management, the effects of competition on our business and customer trends.

Forward-looking statements include all statements that are not historical facts and can be identified by terms such as "anticipates," "believes," "could," "seeks," "estimates" (including, without limitation, financial estimates denoted with an "E," such as FY25E), "targets," "guidance," "expects," "intends," "may," "plans," "potential," "predicts," "prospects," "projects," "should," "will," "would" or similar expressions and the negatives of those terms, although not all forward-looking statements contain these identifying words.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Additionally, these forward-looking statements, particularly our guidance, involve risks, uncertainties and assumptions based on information available to us as of October 29, 2025, including those related to our future financial performance, global economic conditions and demand for digital transformation. Many of these assumptions relate to matters that are beyond our control and changing rapidly, including, but not limited to, fluctuations in the value of foreign currencies relative to the U.S. Dollar; fluctuations in interest rates; global macroeconomic and political conditions including changes in government spending and operating status, tariffs, inflation and armed conflicts; and fluctuations and volatility in our stock price. If any such risks or uncertainties materialize or if any of the assumptions prove incorrect, our results could differ materially from the results expressed or implied by the forward-looking statements we make. Further information on these and other factors that could cause or contribute to such differences include, but are not limited to, those discussed in the "Risk Factors" section in our Annual Report on Form 10-K filed for the year ended December 31, 2024 and in our other Securities and Exchange Commission ("SEC") filings. We cannot guarantee that we will achieve the plans, intentions, or expectations disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements.

Forward-looking statements represent our management's beliefs and assumptions only as of the date of this presentation. We undertake no obligation, and do not intend, to update these forward-looking statements, to review or confirm analysts' expectations, or to provide interim reports or updates on the progress of the current financial quarter.

This presentation includes certain non-GAAP financial measures and the corresponding growth rates as defined by SEC rules. For additional information, see the slide titled "Statement Regarding Use of Non-GAAP Financial Measures."

Terms such as Remaining Performance Obligations ("RPO"), Current Remaining Performance Obligations ("cRPO") and Renewal Rate shall have the meanings set forth in our filings with the SEC.

The information in this presentation on new products, features, or functionality, including products that incorporate AI technology, is intended to outline our general product direction and should not be relied upon in making a purchasing decision. The information on new products, features, and functionality is for informational purposes only and shall not be incorporated into any contract. The information on new products, features, and functionality is not a commitment, promise, or legal obligation to deliver any material, code or functionality. The development, release, and timing of any features or functionality described for our products remains at our sole discretion.

Statement Regarding Use of Non-GAAP Financial Measures

We report non-GAAP financial measures in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP.

We adjust revenues and related growth rates ("revenues"), and current remaining performance obligations ("cRPO") and remaining performance obligations ("RPO") and related growth rates for constant currency to provide a framework for assessing how our business performed excluding the effect of foreign currency rate fluctuations, and for revenues only, any gains or losses from foreign currency hedge contracts that are reported in the current and comparative period. To exclude the effect of foreign currency rate fluctuations, current period revenues results for entities reporting in currencies other than U.S. Dollars are converted into U.S. Dollars at the average exchange rates in effect for the comparison period, rather than the actual exchange rates in effect for the current period. Guidance for related growth rates is derived by applying the average exchange rates in effect during the comparison period, rather than the exchange rates for the guidance period, adjusted for any foreign currency hedging effects. We believe the presentation of revenues and corresponding growth rates adjusted for constant currency by excluding effects of foreign currency rate fluctuations and any gains or losses from foreign currency hedge contracts facilitates the comparison of revenues year-over-year. Current period cRPO and RPO results and related growth rates for entities reporting in currencies other than U.S. Dollars are converted into U.S. Dollars at the exchange rates in effect at the end of the comparison period rather than the actual end of the period exchange rates in effect during the guidance period. We believe the presentation of cRPO and RPO and related growth rates adjusted for constant currency facilitates the comparison of cRPO and RPO year-over-year, respectively.

Our non-GAAP presentation of gross profit, income from operations, and net income measures exclude certain non-cash or non-recurring items, including stock-based compensation expense, amortization of purchased intangibles, legal settlements, business combination and other related costs including compensation expense, impairment of assets, severance costs, and income tax effects and adjustments. We believe these adjustments provide useful supplemental information to investors and facilitates the analysis of our operating results and comparison of operating results across reporting periods.

Free cash flow is defined as net cash provided by operating activities plus cash outflows for legal settlements and business combination and other related costs including compensation expense, reduced by purchases of property and equipment. Free cash flow margin is calculated as free cash flow as a percentage of total revenues. We believe information regarding free cash flow and free cash flow margin provides useful information to investors because it is an indicator of the strength and performance of our business operations.

Our presentation of non-GAAP financial measures may not be comparable to similar measures used by other companies. We encourage investors to carefully consider our results under GAAP, as well as our supplemental non-GAAP information and the reconciliation between these presentations, to more fully understand our business. Please see the tables included at the end of this presentation for the reconciliation of GAAP and non-GAAP results.

Technology Workflows

Accelerate digital transformation with resilient, cost-efficient, and secure technology

Core Business Workflows

Provide easy-to-follow processes across HR, Procurement, Facilities, Legal, and Finance, reducing costs and improving performance

CRM and Industry Workflows

Intelligently orchestrate customer experiences to service, sell, and deliver on a single platform

Creator Workflows

Build connected crossenterprise workflow apps fast using low-code and hyperautomation that safely deliver agile services at scale

ServiceNow Al Platform®

Connect AI, data, and workflows to maximize the value of existing technology investments, cut costs, and make impactful improvements in core business processes all on a single platform

We are the Al Platform for Business Transformation

We move with the pace of innovation to help customers transform organizations across every industry while upholding a trustworthy, human centered approach to deploying our products and services at scale

Our approximately 8,400 global customers⁽¹⁾ include over 85% of the Fortune 500. They all rely on ServiceNow solutions using the Now Al Platform—the intelligent and intuitive cloud platform—for successful digital transformation

Our aspiration is to be the defining enterprise software company of the 21st century

Q3-25 Financial Highlights

| Q3 2025 Results | Quarterly Results | Increase (Decrease) Y/Y | Currency Impact ⁽¹⁾ | Non-GAAP Constant Currency Y/Y ⁽²⁾ |
|---|-------------------|----------------------------|--------------------------------|--|
| Subscription Revenues | \$3,299M | 21.5% | ~100bps tailwind | 20.5% |
| Current RPO (cRPO) | \$11.35B | 21% | ~100bps tailwind | 20.5% |
| Remaining Performance Obligations (RPO) | \$24.3B | 24% | ~100bps tailwind | 23% |
| Non-GAAP Operating Margin ⁽³⁾ | 33.5% | ~250bps | NA | NA |
| Non-GAAP Free Cash Flow Margin ⁽³⁾ | 17.5% | ~50bps | NA | NA |

⁽¹⁾ Currency impact on subscription revenue growth rates are derived by applying the average exchange rates in effect during the comparison period, rather than the actual average exchange rates in effect during the current and comparative periods. Currency impact on cRPO and RPO growth rates are derived by applying the exchange rates in effect at the end of the comparison period rather than the actual end of period exchange rates in effect during the current period.

⁽²⁾ The non-GAAP growth rates for subscription revenues are adjusted for constant currency by excluding effects of foreign currency rate fluctuations and any gains or losses from foreign currency hedge contracts, and cRPO and RPO are adjusted only for constant currency. See slides 10-11 for additional discussion of non-GAAP subscription revenues and their corresponding growth rates. See slide 12 for additional discussion of non-GAAP cRPO and RPO and their corresponding growth rates.

(3) This financial metric and its corresponding growth rate, if applicable, are calculated on a non-GAAP basis. See appendix for a reconciliation of non-GAAP financial measures to the most comparable GAAP measures.

Note: Numbers rounded for presentation purposes.

2025 Guidance Assumptions

Our guidance includes GAAP and non-GAAP financial measures. The non-GAAP growth rates for subscription revenues are adjusted for constant currency by excluding the effects of foreign currency rate fluctuations and any gains or losses from foreign currency hedge contracts, and the non-GAAP growth rates for cRPO are adjusted only for constant currency to provide better visibility into the underlying business trends.

U.S. Federal agencies are currently navigating changes, from tightening budgets to evolving mission demands. The recent government shutdown may also impact deal timing in the near-term. These dynamics have been reflected in our Q4 2025 guidance.

Guidance Summary

| Q4 2025 Guidance | Quarterly Guidance | Increase (Decrease) Y/Y | Currency Impact Included in Guidance ⁽¹⁾ | Non-GAAP Constant Currency Y/Y ⁽²⁾ |
|--|---|----------------------------|---|--|
| Subscription Revenues | \$3,420M - \$3,430M | 19.5% | ~150bps tailwind | 17.5% - 18% |
| Non-GAAP Operating Margin ⁽³⁾ | 30% | ~50bps | NA | NA |
| Current RPO (cRPO) Growth | 23% | NA | ~400bps tailwind | 19% |
| | | | | |
| | | | | |
| FY 2025 Guidance | Full-Year Guidance | Increase (Decrease) Y/Y | Currency Impact Included in Guidance ⁽¹⁾ | Non-GAAP Constant Currency Y/Y ⁽²⁾ |
| FY 2025 Guidance Subscription Revenues | Full-Year Guidance \$12,835M - \$12,845M | | Included in | |
| | | (Decrease) Y/Y | Included in Guidance ⁽¹⁾ | Currency Y/Y ⁽²⁾ |
| Subscription Revenues | \$12,835M - \$12,845M | (Decrease) Y/Y 20.5% | Included in Guidance ⁽¹⁾ ~50bps tailwind | Currency Y/Y ⁽²⁾ 20% |

⁽¹⁾ Currency impact on subscription revenues growth rates are derived by applying the average exchange rates in effect during the comparison period, rather than the exchange rates for the guidance period, adjusted for any foreign currency hedging effects. Currency impact on cRPO growth rates are derived by applying the end of period exchange rates in effect during the comparison period rather than the exchange rates in effect during the guidance period.

⁽²⁾ The non-GAAP growth rates for subscription revenues are adjusted for constant currency by excluding effects of foreign currency rate fluctuations and any gains or losses from foreign currency hedge contracts, and cRPO is adjusted only for constant currency.

⁽³⁾ This financial metric and its corresponding growth rate, if applicable, are calculated on a non-GAAP basis. See appendix for a reconciliation of non-GAAP financial measures to the most comparable GAAP measures.

Comparison to Previously Issued Guidance

(2) GAAP subscription revenues included in our previous guidance is based on the 30-day average foreign exchange rates for June 2025 for entities reporting in currencies other than U.S. Dollars. Currency impact in Q3 2025 represents the impact of the difference between the actual average foreign exchange rates in the period used to calculate our Q3 2025 actual results and the 30-day average foreign exchange rates for June 2025 assumed in our previously issued guidance dated 7/23/25, including any gains or losses from foreign currency hedge contracts. Currency impact on our full year guidance represents the impact of the difference between the 30-day average foreign exchange rates for September 2025 assumed in our updated full-year 2025 guidance, and the 30-day average foreign exchange rates for June 2025 in our previously issued guidance dated 7/23/25, including any gains or losses from foreign currency hedge contracts.

Note: Numbers rounded for presentation purposes and may not foot.

Year-Over-Year Subscription Revenues Growth

Subscription Revenues (%)

(1) Non-GAAP subscription revenues growth rates are adjusted only for constant currency and derived by adjusting subscription revenues for constant currency by applying the average exchange rates in effect during the current period and excluding any gains or losses from foreign currency hedge contracts.

Note: Numbers are rounded to the nearest whole percentage for presentation purposes.

Currency Impact to Year-Over-Year Sub. Revenues

(1) Non-GAAP constant currency subscription revenues and the corresponding growth figures are adjusted only for constant currency and derived by applying the average exchange rates in effect during the comparison period rather than the actual average exchange rate in effect during the current period and excluding any gains or losses from foreign currency hedge contracts.

Note: Numbers are rounded to the nearest whole percentage for presentation purposes.

Remaining Performance Obligations (RPO)

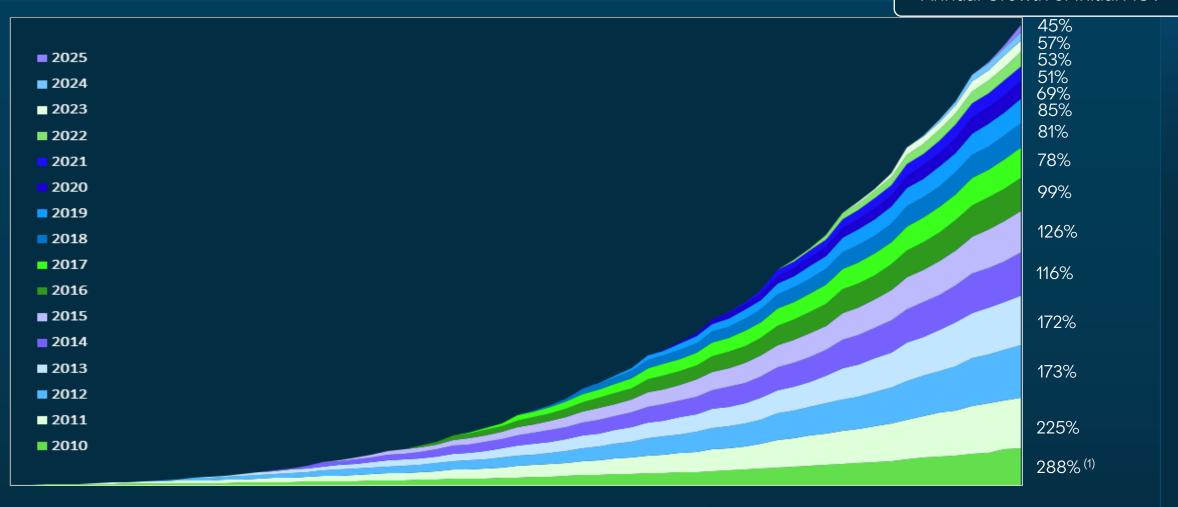

(1) The total RPO and current RPO growth rates are adjusted only for constant currency. Results for entities reporting in currencies other than U.S. Dollars are converted into U.S. Dollars at the exchange rates in effect at the end of the current period.

Note: Numbers rounded for presentation purposes.

Customer Cohort Growth

Annual Growth of Initial ACV

(1) As an illustrative example, 2010 customer cohort started with a contract of initial ACV (annual contract value) of \$100 and grew to ACV of \$4,420 as of Q3-25 and represents annual growth of initial ACV of 288%.

Note: Chart reflects growth in total annual contract value over time, inclusive of losses, for the group of customers that joined ServiceNow in each respective year. Annual Growth represents increases in total annual contract value after the initial contract of each customer.

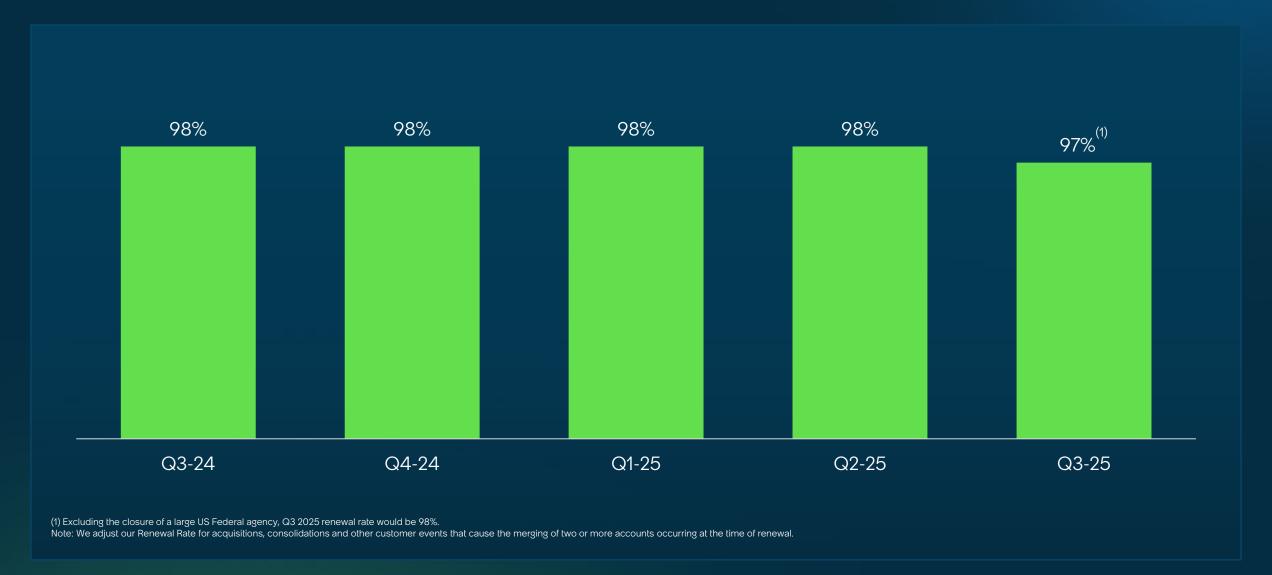

Expansion of Customer Relationships

(\$M)

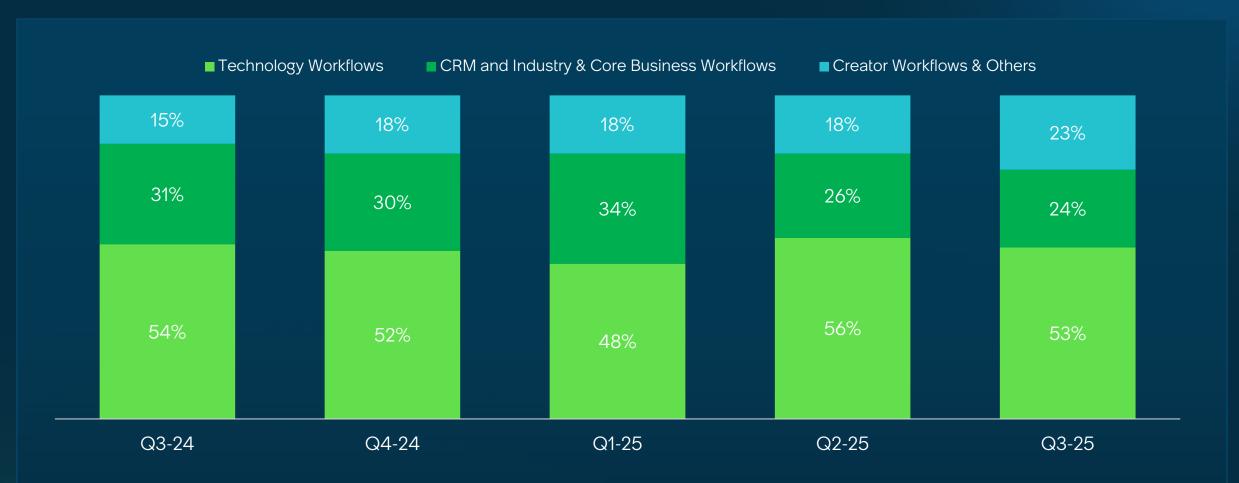

Note: Previously disclosed number of customers with ACV greater than \$5 million is restated to allow for comparability. ACV is calculated based on the foreign exchange rate in effect at the time the contract was entered into. Foreign exchange rate fluctuations could cause some variability in the number of customers with ACV greater than \$5 million.

Renewal Rate

Net New ACV Contribution Across Workflows and Products®

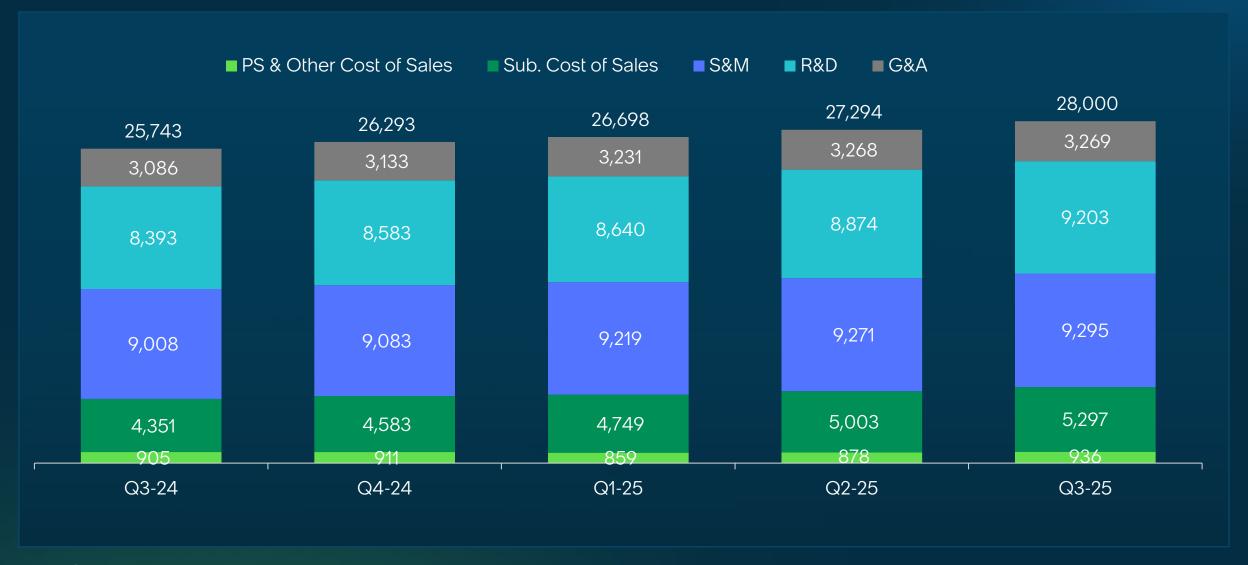

⁽¹⁾ Historical presentations disclosed net new ACV contribution across products and are not comparable to net new ACV contribution across workflows and products disclosed herein. NNACV generated from Industry products is spread across several workflows, the majority of which is reported under CRM and Industry Workflows.

Note: Technology Workflows include IT Service Management, IT Operations Management, Asset Management, Security Operations, Integrated Risk Management, Strategic Portfolio Management, Operational Technology Management, and others. CRM and Industry & Core Business Workflows include Customer Service Management, Field Service Management, HR Service Delivery, Workplace Service Delivery, Source-to-Pay Operations, and others. Creator Workflows & Others include App Engine, Workflow Data Fabric, Platform Privacy & Security, and others. Prior to Q1-25, Source-to-Pay Operations were included as part of Creator Workflows & Others.

⁽¹⁾ We use a non-GAAP effective tax rate for evaluating our operating results to provide consistency across reporting periods. Based on our long-term projections, we are using a non-GAAP tax rate of 20% for each of the three months ended September 30, 2025 and 2024. This non-GAAP tax rate could change for various reasons including significant changes in our geographic earnings mix or fundamental tax law changes in major jurisdictions in which we operate.
