

For Immediate Release

AVERY DENNISON ANNOUNCES THIRD QUARTER 2026 RESULTS

Delivered strong sales, earnings and cash flow

- 3Q26 Reported EPS of \$2.24
 - Adjusted EPS (non-GAAP) of \$2.42, up 2.1%
- 3Q26 Net sales of \$2.3 billion, up 5.2%
 - Sales change ex. currency (non-GAAP) up 4.9%
 - Organic sales change (non-GAAP) up 3.7%
- FY26 Reported EPS guidance of \$9.45 to \$9.59
 - FY26 Adjusted EPS guidance of \$10.10 to \$10.24

MENTOR, Ohio, October 29, 2026 – Avery Dennison Corporation (NYSE:AVY), a leading global materials science and digital identification solutions company, today announced preliminary, unaudited results for its third quarter ended September 30, 2026. Non-GAAP financial measures referenced in this release are reconciled from GAAP in the attached financial schedules. Unless otherwise indicated, comparisons are to the same period in the prior year.

“We delivered another quarter of strong results, highlighted by continued improvement in our underlying organic sales and earnings growth,” said Deon Stander, Avery Dennison’s president and CEO.

“Our focus on innovation and service-led differentiation drove mid-single digit organic growth in both our high-value categories and base businesses. In the face of higher inflation and customer destocking impacts, our teams demonstrated strong operational agility, delivering robust productivity and generating impressive free cash flow.

“I want to thank our global teams for their agility and performance. Their commitment strengthens our competitive moat as we execute through the balance of the year and beyond.”

Third Quarter 2026 Results by Segment

Materials Group

- Reported sales increased 8.5% to \$1.6 billion.
- Sales up 6.7% ex. currency
- Sales up 4.9% on an organic basis
 - High-value categories up mid-single digits
 - Base categories up mid-single digits
 - Volume/mix growth of low single digits and price benefit of mid-single digits
- Reported operating margin of 13.7%
 - Adjusted operating margin (non-GAAP) of 14.1%, down 110 basis points
 - Adjusted EBITDA margin (non-GAAP) of 16.4%, down 110 basis points, as productivity was more than offset by negative volume/mix and higher employee-related costs.

Solutions Group

- Reported sales decreased 1.8% to \$687 million.
- Sales up 0.8% ex. currency
- Sales up 0.8% on an organic basis
 - High-value categories comparable to prior year
 - Base categories up low single digits
 - Overall apparel categories up mid-single digits
- Reported operating margin of 10.5%
 - Adjusted operating margin of 10.8%, up 80 basis points
 - Adjusted EBITDA margin of 17.8%, up 80 basis points, as productivity was partially offset by higher employee-related costs.

Other

Capital Deployment and Balance Sheet

The company continues to deploy capital in a disciplined manner, executing its long-term capital allocation strategy.

During the first three quarters of 2026, the company returned \$481 million in cash to shareholders through a combination of share repurchases and dividends. The company repurchased 1.5 million shares, with payments for share purchases totaling \$257 million. Net of

dilution, the company's share count at the end of the third quarter was down 1.9 million compared to the same time last year.

The company's balance sheet remains strong. Net debt to adjusted EBITDA (non-GAAP) was 2.2x at the end of the third quarter.

Income Taxes

The company's reported effective tax rate was 29.6% and 29.1% for the three and nine months ended September 30, 2026, respectively. The adjusted tax rate (non-GAAP) was 26.9% for both the three and nine months ended September 30, 2026.

Cost Reduction Actions

Through the first three quarters of the year, the company realized approximately \$54 million in pre-tax savings from restructuring actions and incurred approximately \$43 million in pre-tax restructuring charges.

Guidance

In its supplemental presentation materials, "Third Quarter 2026 Financial Review and Analysis," the company provides a list of factors that it believes will contribute to its financial results. Based on the factors listed and other assumptions, the company expects full year 2026 reported EPS of \$9.45 to \$9.59.

Excluding an estimated \$0.65 impact of restructuring charges and other items, the company expects full year 2026 adjusted EPS of \$10.10 to \$10.24.

For more details on the company's results, see the financial schedules accompanying this news release, as well as the supplemental presentation materials, "Third Quarter 2026 Financial Review and Analysis," posted on the company's website at www.investors.averydennison.com, and furnished to the SEC on Form 8-K.

Throughout this release and the supplemental presentation materials, amounts on a per share basis reflect fully diluted shares outstanding.

About Avery Dennison

Avery Dennison Corporation (NYSE: AVY) is a global materials science and digital identification solutions company. We are Making Possible™ products and solutions that help advance the industries we serve, providing branding and information solutions that optimize labor and supply chain efficiency, reduce waste and mitigate loss, advance sustainability, circularity and

transparency and better connect brands and consumers. We design and develop labeling and functional materials, radio-frequency identification (RFID) inlays and tags, software applications that connect the physical and digital and offerings that enhance branded packaging and carry or display information that improves the customer experience. Serving industries worldwide — including home and personal care, apparel, general retail, e-commerce, logistics, food and grocery, pharmaceuticals and automotive — we employ approximately 35,000 employees in more than 50 countries. Our reported sales in 2025 were \$8.9 billion. Learn more at www.averydennison.com.

“Safe Harbor” Statement under the Private Securities Litigation Reform Act of 1995

Certain statements contained in this document are “forward-looking statements” intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements, and financial or other business targets, are subject to certain risks and uncertainties.

We believe that the most significant risk factors that could affect our financial performance in the near term include: (i) the impact on underlying demand for our products from global economic conditions, tariffs, geopolitical uncertainty, and changes in environmental standards, regulations and preferences; (ii) competitors’ actions, including pricing, expansion in key markets, and product offerings; (iii) the cost and availability of raw materials; (iv) the degree to which higher costs can be offset with productivity measures and/or passed on to customers through price increases, without a significant loss of volume; (v) foreign currency fluctuations; and (vi) the execution and integration of acquisitions.

Actual results and trends may differ materially from historical or anticipated results depending on a variety of factors, including but not limited to, risks and uncertainties related to the following:

- International Operations – worldwide economic, social, geopolitical and market conditions; changes in geopolitical conditions, including those related to trade relations and tariffs, China, recent conflicts involving the U.S., Israel and Iran and related hostilities in the Middle East, the Russia-Ukraine war, and the Israel-Hamas war; fluctuations in foreign currency exchange rates; and other risks associated with international operations, including in emerging markets
- Our Business – fluctuations in demand affecting sales to customers; fluctuations in the cost and availability of raw materials and energy; changes in our markets due to competitive conditions, technological developments, laws and regulations, and customer preferences; environmental regulations and sustainability trends; the impact of competitive products and pricing; the execution and integration of acquisitions; selling prices; customer and supplier concentrations or consolidations; the financial condition of distributors; outsourced manufacturers; product and service quality claims; restructuring and other cost reduction actions; our ability to generate sustained productivity improvement and our ability to achieve and sustain targeted cost reductions; the timely development and market acceptance of new products, including sustainable or sustainably-sourced products; our investment in development activities and new production facilities; the collection of receivables from customers; and our sustainability and governance practices
- Information Technology – disruptions in information technology systems; cybersecurity events or other security breaches; and successful installation of new or upgraded information technology systems
- Income Taxes – fluctuations in tax rates; changes in tax laws and regulations, and uncertainties associated with interpretations of such laws and regulations; outcome of tax audits; and the realization of deferred tax assets
- Human Capital – recruitment and retention of employees and collective labor arrangements
- Our Indebtedness – our ability to obtain adequate financing arrangements and maintain access to capital; credit rating risks; fluctuations in interest rates; and compliance with our debt covenants
- Ownership of Our Stock – potential significant variability of our stock price and amounts of future dividends and share repurchases
- Legal and Regulatory Matters – protection and infringement of our intellectual property and the impact of legal and regulatory proceedings, including with respect to anti-corruption, environmental, health and safety, and trade compliance

- Other Financial Matters – fluctuations in pension costs and goodwill impairment

For a more detailed discussion of these factors, see “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2025 Form 10-K, filed with the Securities and Exchange Commission on February 25, 2026, and subsequent quarterly reports on Form 10-Q.

The forward-looking statements included in this document are made only as of the date of this document, and we undertake no obligation to update these statements to reflect subsequent events or circumstances, other than as may be required by law.

Reconciliation of Non-GAAP Financial Measures from GAAP

We report our financial results in conformity with accounting principles generally accepted in the United States of America, or GAAP, and also communicate with investors using certain non-GAAP financial measures. These non-GAAP financial measures are not in accordance with, nor are they a substitute for or superior to, the comparable GAAP financial measures. These non-GAAP financial measures are intended to supplement the presentation of our financial results prepared in accordance with GAAP. We use these non-GAAP financial measures internally to evaluate trends in our underlying performance, as well as to facilitate comparisons with the results of competitors for quarters and year-to-date periods, as applicable. Based on feedback from investors and financial analysts, we believe that the supplemental non-GAAP financial measures we provide are also useful to their assessments of our performance and operating trends, as well as liquidity. Reconciliations of our non-GAAP financial measures from the most directly comparable GAAP financial measures are provided in accordance with Regulations G and S-K.

Our non-GAAP financial measures exclude the impact of certain events, activities or strategic decisions. The accounting effects of these events, activities or decisions, which are included in the GAAP financial measures, may make it more difficult to assess our underlying performance in a single period. By excluding the accounting effects, positive or negative, of certain items (e.g., restructuring charges, outcomes of certain legal matters and settlements, certain effects of strategic transactions and related costs, losses from debt extinguishments, gains or losses from curtailment or settlement of pension obligations, gains or losses on sales of certain assets, gains or losses on venture and other investments, currency adjustments due to highly inflationary economies, and other items), we believe that we are providing meaningful supplemental information that facilitates an understanding of our core operating results and liquidity measures. While some of the items we exclude from GAAP financial measures recur, they tend to be disparate in amount, frequency or timing.

We use the non-GAAP financial measures described below in the accompanying news release.

Sales change ex. currency refers to the increase or decrease in net sales, excluding the estimated impact of foreign currency translation, and, where applicable, currency adjustments for transitional reporting of highly inflationary economies and the reclassification of sales between segments. Additionally, where applicable, sales change ex. currency is also adjusted for the estimated impact of extra days in our fiscal year and the calendar shift resulting from extra days in the prior fiscal year. The estimated impact of foreign currency translation is calculated on a constant currency basis, with prior-period results translated at current-period average exchange rates to exclude the effect of foreign currency fluctuations. Our 2025 fiscal year began on December 29, 2024 and ended on December 31, 2025; fiscal years 2026 and beyond are coincident with the calendar year, beginning on January 1 and ending on December 31.

Organic sales change refers to sales change ex. currency, excluding the estimated impact of acquisitions and product line divestitures.

We believe that sales change ex. currency and organic sales change assist investors in evaluating the sales change from the ongoing activities of our businesses and enhance their ability to evaluate our results from period to period.

Adjusted operating income refers to net income adjusted for taxes; other expense (income), net; interest expense; and other non-operating expense (income), net.

Adjusted EBITDA refers to adjusted operating income before depreciation and amortization.

Adjusted operating margin refers to adjusted operating income as a percentage of net sales.

Adjusted EBITDA margin refers to adjusted EBITDA as a percentage of net sales.

Adjusted tax rate refers to the projected full-year GAAP tax rate, adjusted to exclude certain unusual or infrequent events that are expected to significantly impact that rate, such as effects of certain discrete tax planning actions, impacts related to enactments of tax law changes, and other items.

Adjusted net income refers to income before taxes, tax-effected at the adjusted tax rate, and adjusted for tax-effected restructuring charges and other items.

Adjusted net income per common share, assuming dilution (adjusted EPS) refers to adjusted net income divided by the weighted average number of common shares outstanding, assuming dilution.

We believe that adjusted operating margin, adjusted EBITDA margin, adjusted net income, and adjusted EPS assist investors in understanding our core operating trends and comparing our results with those of our competitors.

Net debt to adjusted EBITDA ratio refers to total debt (including finance leases) less cash and cash equivalents, divided by adjusted EBITDA for the last twelve months. We believe that the net debt to adjusted EBITDA ratio assists investors in assessing our leverage position.

Adjusted free cash flow refers to cash flow provided by (used in) operating activities, less payments for property, plant and equipment, less payments for software and other deferred charges, plus proceeds from sales of property, plant and equipment, plus (minus) net proceeds from insurance and sales (purchases) of investments. Where applicable, adjusted free cash flow is also adjusted for certain acquisition-related transaction costs, proceeds from company-owned life insurance policies and net cash used for Argentine Blue Chip Swap securities. We believe that adjusted free cash flow assists investors by showing the amount of cash we have available for debt reductions, dividends, share repurchases and acquisitions.
