STATEMENT AS OF JUNE 30, 2026 OF THE ARCH MORTGAGE ASSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices
The accompanying financial statements of Arch Mortgage Assurance Company (the "Company") are presented on the basis of accounting practices prescribed or permitted by the Wisconsin Office of the Commissioner of Insurance (the "Department").

The Department recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin (the "State") for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under Wisconsin insurance laws. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State.

The State has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, changes in contingency reserves for the year are reported in the annual statement as a reduction of or addition to underwriting income. Under Statement of Statutory Accounting Principles ("SSAP") No. 58, Mortgage Guaranty Insurance changes in contingency reserves must be reported directly to unassigned funds (surplus) and not included in income. This modification adopted by the State does not affect the Company's statutory surplus. Reconciliations of net income and policyholder's surplus between the amounts reported in the accompanying financial statements (Wisconsin Basis) and NAIC SAP follow:

C. Accounting Policy
(2) Basis for Bonds and Amortization Schedule
Effective January 1, 2025, the NAIC adopted the principles-based bond definition of a bond which shall be defined as any security representing a creditor relationship, whereby there is a fixed schedule for one or more future payments which qualifies as either an issuer credit obligation or an asset-backed security. Determining whether a security represents a creditor relationship should consider its substance, rather than solely the legal form of the instrument. A security that in substance possesses equity-like characteristics or represents an ownership interest in the issuer does not represent a creditor relationship.

Securities held at the effective date of the transition were assessed to determine if they qualified within the bond definition for reporting on Schedule D-1. Based upon this assessment, all investments reported on Schedule D-1 Long-Term Bonds as of December 31, 2024, qualify as bonds under the principles-based bond concepts as of January 1, 2025.

Bonds are reported at amortized cost or the lower of amortized cost or fair value based on the security's rating as prescribed by the NAIC, in accordance with the Purposes and Procedures Manual of the Securities Valuation Office of the NAIC ("SVO"). Bonds which are medium quality or below (a designation 3, 4, 5 or 6) are stated at the lower of amortized cost or fair value. Bond discount is accreted and bond premium is amortized into income using the scientific method.

The Company quarterly reviews its investments to determine whether a decline in fair value below the amortized cost basis is other than temporary. The Company's process for identifying declines in the fair value of investments that are other than temporary involves consideration of several factors. These factors include (i) the time period in which there has been a significant decline in value, (ii) an analysis of the liquidity, business prospects and overall financial condition of the issuer, (iii) the significance of the decline and (iv) the Company's intent and ability to hold the investment for a sufficient period of time for the value to recover. Where the Company's analysis of the above factors results in the conclusion that declines in fair values are other than temporary, the cost of the securities is written down to fair value and the reduction in value is reflected as a realized loss. The new cost basis would not be changed for subsequent recoveries in fair value.

(6) Basis for Loan-Backed Securities and Adjustment Methodology
Asset-backed securities are stated at either amortized cost or the lower of amortized cost or fair value. The retrospective adjustment method is used to value all securities except for interest-only securities, which are valued using the prospective method. In cases where a security has been impaired or if it's rating is "AA" or below the prospective method may also be used.

D. Going Concern
Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Company's ability to continue as a going concern.

(4) All Impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a) The aggregate amount of unrealized losses:

1. Less than 12 Months	\$	-
2. 12 Months or Longer	\$	-

b)The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	-
2. 12 Months or Longer	\$	-

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

In accordance with SSAP No. 43, Loan-backed and Structured Securities, the Company's loan-backed securities are stated at amortized cost. When evaluating whether a decline in value is other-than-temporary, the Company considers several factors, including, but not limited to, the following: The extent and the duration of the decline in value; The reasons for the decline in value (credit event, interest related or market fluctuations); The financial position and access to capital of the issuer, including the current and future impact of any specific events; Our intent to sell the securities, or whether it is more likely than not that we will be required to sell it before recovery; and the financial condition and near term prospects of the issuer. Impairment due to deterioration in credit that results in a conclusion that the present value of cash flows expected to be collected will not be sufficient to recover the amortized cost basis of the securities is considered other-than-temporary. Other declines in fair value (for example, due to interest rate changes, sector credit rating changes or company -specific rating changes) that result in a conclusion that the present value of cash flows expected to be collected will not be sufficient to recover the amortized cost basis of the security may also result in a conclusion that an OTTI has occurred. To the extent that the Company determines that a security is other-than-temporarily impaired, an impairment loss is recognized in the Statement of Income.

Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable at commonly quoted intervals.
