

Arch Capital Group Chairman Receives Lifetime Achievement Award

NEW YORK, NY, March 18, 2015—Constantine (Dinos) Iordanou and his wife, Marianne, will receive a Lifetime Achievement award for their support and philanthropy to Our Lady of Mercy Academy in Syosset, NY. The award will be presented during a fundraising dinner at Gotham Hall in New York City on March 26, 2015.

The President of Our Lady of Mercy Academy, Margaret Myhan, was pleased to note: “For the past fifteen years, Dinos and Marianne have been actively involved with Mercy. As parents of Mercy graduates, Danielle '04 and Alexandra '07, they spearheaded the campaign to build a turf field ten years ago. They have continued to work tirelessly on many projects to benefit Mercy students now and into the future. Today, Marianne is Vice-Chair of the Board of Directors and Chairwoman of the Annual Fund Task Force. Both Dinos and Marianne realize the importance that technology plays in the education of high school students. As a tribute to their daughters, they have designated that the proceeds from this dinner will support the funds needed to transform and upgrade the school’s technology infrastructure, named the “TEAM” Mercy Program (Technology Expansion Achievement Mission), and expand our computer science curriculum. To meet these goals, Our Lady of Mercy requires mobile and smart technology for our faculty and classrooms, and renovated and equipped computer labs for students”.
