

LATAM group transported 7.6 million passengers in September

Operating statistics for September 2026

Santiago, October 8, 2026 – During September, LATAM group transported 7.6 million passengers, representing a 3.7% increase compared to the same month of 2025. In line with the above, LATAM group increased its consolidated capacity, measured in available seat-kilometers (ASK), by 7.7% compared to September 2025. This growth was driven by an 11.1% increase in domestic operations of the affiliates in Chile, Colombia, Ecuador and Peru, together with a 7.8% increase in international operations and a 5.8% increase in domestic capacity offered by LATAM Airlines Brazil.

Consolidated traffic, measured in revenue passenger-kilometers (RPK), increased by 6.2% compared to September 2025, reflecting growth across all segments. As a result, the consolidated load factor reached 83.1% in September.

Regarding cargo operations, capacity measured in available ton-kilometers (ATK) increased by 2.2% compared to September of the previous year. As a result, 85 thousand tons of cargo were transported during the month, 4.7% more than in the same period of 2025.

The following table summarizes the main operating statistics for the month, quarter and year-to-date as of September for the main LATAM group business segments:
